

BVX-100

Benchtop Fume Extraction

The **BVX-100** is a portable, single-user Bench Top Filter Unit. Plenum or exhaust arm versions are available. With its true HEPA filtration efficiency of 99.95% the BVX-101 model is most suitable to remove the more irritating flux fumes from lead-free solders. The BVX-103 model has a deep-bed carbon filter for organic solvent and adhesive applications. The units high suction force of 5" water column assures long filter lifetime.

Features

- Very portable with easy setup
- Small footprint (12"x9")
- Plenum or arm version
- Pre-filter, HEPA and carbon filter
- High suction force of 5" water column
- Suitable for lead-free solder fumes
- Universal power: 100-240VAC, 50-60Hz
- UL and CSA certified

Specifications:

Flow rate	50 cfm (with HEPA filter)
Noise level	< 55 dbA
Weight	20 lbs
Size H/W/D	11.5"x12"x9"
Power supply	100-240VAC, 50/60 Hz
Power consumption	85 Watt

Filter Units

BVX-101	Single user Arm/Plenum System, Pre-HEPA-Gas
BVX-101-S	Single user Plenum System, Pre-HEPA-Gas
BVX-103	Single user Arm/Plenum System, Pre-Gas
BVX-103-S	Single user Plenum System, Pre-Gas, 100-240 VAC

Accessories

BVX-ARM	Exhaust Arm, ESD safe, 2" dia. and 24" long
BVX-ARML	Exhaust Arm, ESD safe, 2" dia. and 48" long
BVX-BCK	Under bench mounting bracket
BVX-ADT	Replacement arm-to-plenum adapter
BVX-IADT	Inverted Arm Adapter
BVX-TB01	Table bracket for arm with C-clamps
BVX-CH01	Connection Hose, 2" dia., 6' long with clamps

Replacement Filters

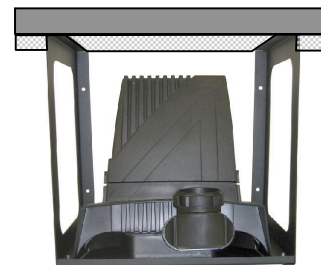

FP-BVX	Pre-filter (Packs of 5)
FM-BVX	Main Filter (combined HEPA / Gas)
FG-BVX	Deep Bed Gas Filter
