RUGGED STEEL BATTERY CLIPS

**Specifications**
- **Clips:** Spring Steel, Nickel Plate
- **Contact Eyelets:** Brass, Nickel Plate
- **Insulating Washers:** Moisture Proof, Resin Impregnated Fibre
- **Solder Lugs:** Brass, Tin Plate

- **Material:** Molded Polyethylene
- **Feature:** No Gluing or Wetting Needed
- **Feature:** Economical
- **Feature:** Adheres to All Surfaces

Prevents improper connection of battery which may cause damage to electronic equipment. Washers hold securely when snapped over eyelets. Used on our standardized battery holders.

For "AA", "C" & "D" cells.

**Economy Contacts**
- Designed for mounting in self-contained, non-metallic battery compartments.
- Reliable spring tension assures low contact resistance.
- Recessed contact holds battery in place.
- All clips have anti-rotation tab.

**Battery Contact Layout & Mounting Details**
Refer to page 32 for Battery Contact Layout & Mounting Details.

**Battery Spring Contacts**
Easy to assemble with eyelets or rivets. Refer to page 142.

**Insulated Polarizing Washers**
Prevents improper connection of battery which may cause damage to electronic equipment. Washers hold securely when snapped over eyelets. Used on our standardized battery holders.

For "AA", "C" & "D" cells.

**Contact Material:** Molded Polyethylene

**Contact Size:** M60 Section 1 FRevA4-COLOR 4/4/13 4:22 PM Page 12
