CPU/Server to ServSwitch Cable (CPU Cable), PS/2 Coax, 75-ft. (22.8-m)

MFG Part Number: EHN282-0075

Description

CPU/Server to ServSwitch Cable (CPU Cable), PS/2 Coax, 75-ft. (22.8-m)

Quick Facts

- For higher resolutions and greater distances, order this coax cable.
- Guaranteed for life!

Further Details

- Use this cable with the ServSwitch™, ServSwitch Ultra™, ServManager, Matrix ServSwitch, ServSwitch Affinity™, and ServSwitch Jr.™.
- To find the cables you need: Match the connector types of your CPUs to the connectors shown (see the diagram by clicking on Diagrams tab), choose standard or coax, then determine the length of cable you need for each run.
NOTE: All ServSwitch connections are DB25.
