

Product Information

Platoshear 170

Platoshear Lead Cutter

170

Introduction

Platoshear 170 flush cuts component leads as large as 18 AWG copper wire (.040"/1.0mm). It has a thin profile designed for the hard-to-get-at areas in electronic assembly where conventional cutters can't reach. Cushioned handles provide daylong comfort. platoshear 170 has a longer cutting life than conventional cutters because it shears rather than bites.

Features / Benefits
