

Overview

The htpc is the ideal controller for your home theatre entertainment systems. It is fundamentally a mini keyboard for home theatre use, ideal and specially developed for use with widows media centre enabled PC's.

It is also compatible with Xbox 360 and PS3.

Connects with Android tablets running Honeycomb 3.1 and the latest Android tablets running Honeycomb, such as the Motorola Xoom and the Samsung Galaxy Tab 10.1 with the USB to micro USB adapter.
