Mini PG Module Enclosures are designed Page for use with din-rail mounted components. Four sizes are available for the mounting of equipment such as relays and timers etc. The enclosure is fitted with din-rail and inspection window as standard.

Page

**Page** 

20/21

A new hinge assembly with hinges ready mounted on to enclosure covers for use with EK, Solid and Fex types. The cover hinges are ultra-sonically welded and so require no additional machining.

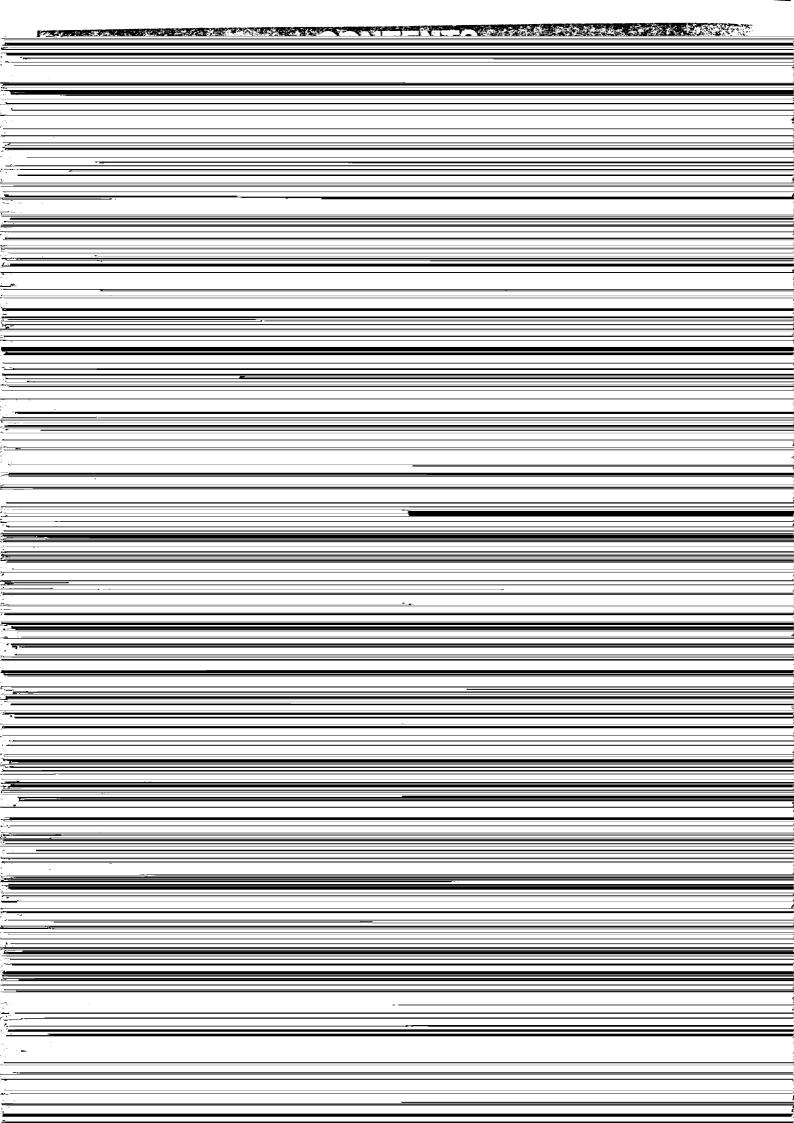

A series of ABS Hand Held and Din spec cases designed for the housing of many types of electrical and electronic components and devices. Versions include models with battery compartments, pocket clips, push buttons and plug in types with soldered contacts.

New generation Cardmaster Enclosures in **Page** polycarbonate IP65 or ABS IP54 versions. 19 Improved design concepts include new hinge and locking device in stylish light blue colour and smoked grey transparent cover with textured sides.

Cardmaster Enclosures are designed principally for use with instrumentation and electronic control units.

### **POLYCARBONATE**

## MINI POLYCARBONATE ENCLOSURES IP65 (A)

These enclosures come in five basic sizes, each with a choice of four different cover depths. The enclosure base has many internal mounting pods to suit different assembly plans. A wide range of accessories are available. Protection to IP65 rating keeps dust, damp and water firmly on the outside.

CM 116	Alu card panel 6TE
CM 118	Alu card panel 8TE

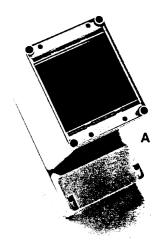

Polycarbonate enclosures for 19" standard printed circuit cards (100 x 160mm Europe cards). Ideally suited for electronic machine and process control units.

(B)

Ref.	Description
CM 40	With smooth sides
CM 40V	With ventilation slots
CM 104	One pair of card guides, 4TE
CM 101	Hinge set for cover
PA 22039	Hinge set for middle part
CM 114	Alu card panel, 4TE
CM 116	Alu card panel, 6TE
CM 118	Alu card panel, 8TE

# CARDMASTER 21/18 213 x 185 x 113

### **WIRING DUCT**

### F130 OPEN SLOT WIRING DUCTS (BASE + COVER)

(A)

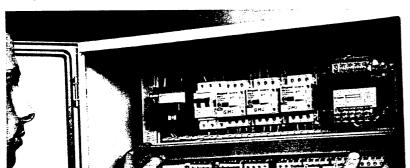

By virtue of the size of the range, the F130 system represents the most complete ducting system around. An array of 6 heights and 10 widths represents a total of 39 sections. The F130 also possesses a number of unique features.

Ref.	WxH	Pack Qty (Mtrs)	Minimum Purchase (Mtrs)

### ALSO AVAILABLE-

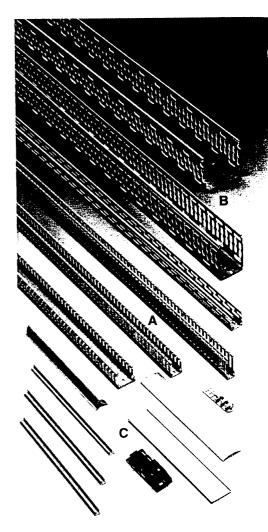

F 130 BSI for intrinsic safety halogen free wiring ducts.

### A135 CLOSED SLOT WIRING DUCTS (BASE + COVER)

In addition to the increased rigidity inherent to this type of ducting, the A135 offers by virtue of its innovating design, remarkable cabling performance coupled with a unique appearance.

### **HANDLES**

(B)

## PLASTIC MOULDED HANDLES (A)

A modern industrial design for today's tough environments. This range is extremely resistant to torsion and is easy to grip. It is manufactured from solid thermoplastic PA6 glass bead reinforced, and is available in matt black with attractive fine grain structure. The handles have a stress capacity of 100kP.

Ref.	Fixing Centres	Screw Size	Overall Length
PMH1	100	M5 x 22	122
PMH2	120	M6 x 25	146
РМН3	140	M8 x 30	170
PMH4	160	M8 x 35	194
PMH5	180	M10 x 40	218

### BRIDGE HANDLES

A range of attractive, competitively priced handles which combine toughness with modern styling. They are manufactured from glass reinforced nylon to satisfy the most arduous industrial applications, and are available in black as standard. They are light and comfortable to use. There are two types: Type 1 has smooth clearance hole; Type 2 has brass threaded inserts.

	Overall	Fixing
Ref.	Length	Centres
Size 1		
BH1	110	94
BH2	139	117
BH3	139	120
BH4	151	132
Size 2		
BH5	110	94
BH6	139	120
ВН7	151	132

### RACK HANDLES (C

This range of handles is specifically designed for front panels and all 19" applications, with the fixing centres matching height of panels and racks.

The cross rail on the handles is made from solid aluminium and the arms of black glass reinforced polyamide. The handle is assembled by bolting on from the front through the cross

## TRAY AND CARRYING HANDLES (Aluminium) (D)

This tray handle is particularly suitable for adaptation to most space and design requirements. Rubber inserts for tight fitting mean that screws are not required, though positions for two M4 screws are available as a mounting aid in Type 2 of the handle. Screws and washers supplied as standards. Colour: silver grip with black tray.

Ref. Size 1	Length	Height

TCH2	118	90
тсн3	167	90
Size 2		
TCH4	100	90
TCH5	118	90
TCH6	167	90

### STEEL HANDLE

A high quality handle with a ground and chrome plated finish. A concealed spring locks the grip in both open and closed positions. Useful for instrument cases where a collapsible handle is required. Supplied complete with M10 nuts and washers.

(E)

Ref.	Fixing Centres	Overall Length	
SH1	100	118	
SH2	120	138	

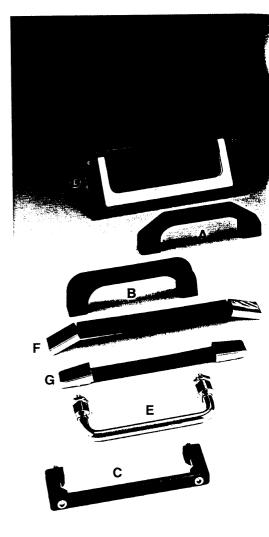

## PULL OUT CARRYING HANDLE

A very high specification black carrying handle manufactured from soft plastic and spring loaded; the end caps are nickel plated steel.

	Fixing	Overall	
Ref.	Centres	Length	
PCH1	187	223	

### STRAP HANDLES (G)

This range has a soft black PVC grip with

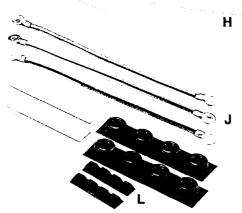

## OVAL CROSS SECTION HANDLE

A high quality aluminium handle with a comfortable grip. The handle is manufactured from an oval aluminium rod which is then bent. The handle has a black or silver anodized finish. Screws and washers are supplied as standard, size M5 x 12.

### **PVC TAPE AND CABLE CLIPS**

### PVC INSULATION TAPE

(A

Electrical insulation tape made to BS3924 & IEC 454-2 supplied in various colours as listed below.

Ref.	Description
TP1920R	19mm x 20m red
TP1920BK	19mm x 20m black
TP1920BL	19mm x 20m blue
TP1920Y	19mm x 20m yellow
TP1920W	19mm x 20m white
TP1920BR	19mm x 20m brown
TP1920G	19mm x 20m grey
TP1920GY	19mm x 20m green/yellow
TP1933R	19mm x 33m red
TP1933BK	19mm x 33m black
TP1933BL	19mm x 33m blue
TP1933Y	19mm x 33m yellow
TP1933W	19mm x 33m white
TP1933BR	19mm x 33m brown
TP1933G	19mm x 33m grey
TP1933GY	19mm x 33m green/yellow

### TWIN & EARTH CABLE CLIPS (B)

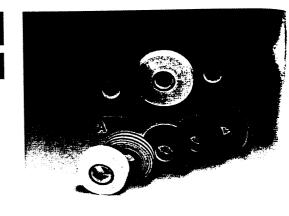

Made of high impact polyethylene with zinc plated hardened steel pins. Tested to work at low temperature (-60°C).

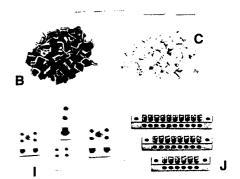

Ref.	Description
	1.0 T&E clips white
CF1W	
CF1.5W	1.5 T&E clips white
CF2.5W	2.5 T&E clips white
CF4W	4.0 T&E clips white
CF6W	6.0 T&E clips white
CF10W	10.0 T&E clips white
CF1G	1.0 T&E clips grey
CF1.5G	1.5 T&E clips grey
CF2.5G	2.5 T&E clips grey
CF4G	4.0 T&E clips grey
CF6G	6.0 T&E clips grey
CF10G	10.0 T&E clips grey

### ROUND CABLE CLIPS (c)

Made of high impact polyethylene with zinc plated hardened steel pins. Tested to work at low temperature (-60°C).

Ref.	Description
CR4W	4mm round white
CR5W	5mm round white
CR6W	6mm round white
CR7W	7mm round white
CR8W	8mm round white
CR9W	9mm round white
CR10W	10mm round white

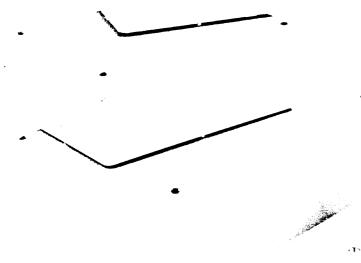

## SELF ADHESIVE CABLE CLIPS

(D)

A range of cable clips manufactured from enamelled electro galvanised mild steel coated with acrylate based adhesive. Very effective where labour saving is required and a variety of cable sizes fixed. Operating temperature -30 to +80C.

Ref.	Max O.D of cable
SAFM	3.5mm
SAF1	4.0mm
SAF2	8.0mm
SAF3	12.0mm
SAF4	16 0mm

SLEEVING, HEAT SHRINK, TERMINALS, INSULATORS AND BOXES

### **TERMINAL STRIPS**

(E)

PORCELAIN TERMINAL BLOCK

m

Flexible polyethylene 12 way terminal strip connections fitted with screw terminals.

Ref. Description

Porcelain terminal blocks available in either one, two or three way versions all fitted with
