

FA460

Gender Matcher - DB-37 Male/Male

Status: Available

FUNCTIONAL NOTES:

This Male-to-Male Gender Matcher has a metal EMI/RFI shielded shell housing two DB-37 male connectors. The EMI/RFI shielding blocks out external equipment noise and other interferences. It allows two female DB-37 cables to be connected together (often referred to as Gender Menders). This adapter will allow a cable terminated with a female DB-37 connector to be connected to a female DB-37.
