FA612
DB9 F to DB25 M Slimline Adapter
Status: Available

Updated 07-09-03

FUNCTIONAL NOTES:

The Adapter is designed for use with an IBM AT or AT clone which uses a DB9 male connector on its serial port.

The adapter is normally directly connected to the PC's serial port. The adapter brings the port out to a DB25 male DTE configured port. With this adapter, cables designed for IBM PC's that have DB25's on the serial port can be used with their IBM PC/AT or clone.

********* SEE PRECAUTIONS *******
