

Rackmount Kit for ServSwitch™ DVI Low-Profile Extenders

Mount up to four ServSwitch DVI Low-Profile KVM Extender units in a 19" server rack.

Overview

Use the Rackmount Kit (ACS1009A-RMK) to mount up to four devices that measure 1.1"H x 4.1"W x 5.6"D (2.9 x 10.3 x 14.3 cm) in a 19" server rack. The Rackmount Kit requires 1U of rack space. Blanking plates cover unused device positions.

Rackmount Kit for ServSwitch

What's Included

Your package should include the following items. If anything is missing or damaged, contact Black Box Technical Support at 724-746-5500 or info@blackbox.com.

- (1) base plate
- (3) blanking plates
- (8) spacer disks, M2, 5x2
- (8) countersunk screws, M2, 5x5

See Figure 1 below for an illustration of what's included in the package.

Figure 1. The Rackmount Kit's components.

Mounting Instructions

1. Align the holes on the base plate with the vacant screw holes on the base of the device.
 2. Fasten the base of the unit to the plate of the mounting kit.
- NOTE: Only use the supplied short screws to prevent damage to the PCBs.
3. Close the remaining gaps with blanking plates.

Mount up to four devices using the Rackmount Kit. (See Figures 2–5).

Figure 2. Mounting one device.

Figure 3. Mounting two devices.

Figure 4. Mounting three devices.

Figure 5. Mounting four devices.

In the leftmost position, you can mount a rackmountable power supply unit (ACS2209A-PS) instead of a regular device. This power supply can power up to three devices.

Figure 6. ACS2209A-PS rackmountable power supply.

NOTE: Use the mounting holes on the back to attach the power supply.

NOTE: After you mount the power supply, the circuit breaker switch is not easy to access since it's covered by the cover strip.
