ScanSnap S1100

S1100	1 Sheet	600 dpi	Simplex 7.5 seconds per page
	ADF		

Compact, easy to use "one touch" scanning!

Easily digitises your documents!
Perfect for home or office use!
A must have for the paperless era!
Make your paper documents more mobile!

One of the smallest mobile A4 scanners in the world

The ScanSnap S1100 document scanner pushes the limits of size for extreme portability while delivering smooth A4 size document scanning[1]. All you need is your laptop and one USB cable to scan and share your documents anywhere, anytime.

The S1100 delivers a snappy 7.5 seconds/page (approximately 8 ppm) scanning speed for color A4 documents at resolutions up to 300 dpi.[2]

[1] When using an optional carrier sheet it is possible to scan even A3 size documents and stitch the front and back side of the folded document together.
[2] The time for scanning was measured from the time a page first enters to the time it fully exits the scanner.

Scans plastic cards and other various document types*

In addition to standard paper types, the S1100 can scan plastic cards like the ones used for membership IDs.

*Card type ISO 7810, ID-1 format = 86 x 54 mm (supports embossed cards)

Continuous Document Feeding (CDF Function)

Even though the S1100 is one of the world's smallest document-feed scanners, you can smoothly scan multiple page documents with remarkable speed. The Continuous Document Feeding function allows you to insert pages one after another without any extra button pressing by detecting when a sheet enters and exits the S1100.

Scanning a two-sided document using the CDF Function

1 **2** **3** **4** **5**

1 Insert the page face up and press the Scan button. **2** The S1100 proceeds to scan the front side. **3** The page exits facing front side down. **4** Reinsert the page without pressing the Scan button. **5** The page is scanned. Press the Scan button to end the scanning process and create the PDF image file.

Seamless linking to Cloud services

The ScanSnap series scanners come with a standard array of functions for near effortless scanning to Evernote, Google Docs, Salesforce, SugarSync and Dropbox.

ScanSnap Folder (Windows OS only)*
You can now easily scan into your preferred application or cloud service even when no scan interface is available, through the import capability. Browse to the new ScanSnap Folder and hit the blue scan button. The documents are now imported into your application and automatically deleted from the ScanSnap Folder on your local computer!

ScanSnap welcomes Dropbox*
Dropbox is a free service that lets you bring all your photos, docs and videos anywhere. This means that any file you save to your Dropbox will automatically save to all your computers, phones and even the Dropbox website.

With more cloud services to choose from, ScanSnap customers are sure to find the right application for their documents.

*Current ScanSnap S1100 users can add any newly enhanced software functions free of charge, please visit http://emea.fujitsu.com/ScanSnapSupport for a variety of options

Two selectable paper paths

Switch the S1100's paper output guide to either the folded position for the straight path or the open position for the U-turn path to best suit the document you want to scan.
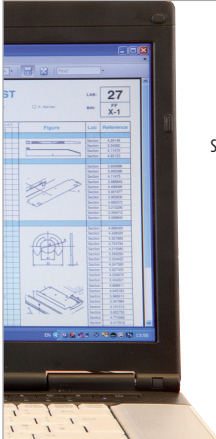

• **Straight path** • **U-turn path**
