

# Harmony XVU Tower Lights

Customizable and super-bright tower lights for increased visibility of machine status and alarms

The Schneider Electric Harmony™ XVU tower light range offers a clean, innovative design that enhances appearance. The color-selectable indication and sound-selectable indication increase the options for machine alarms.

The 60 mm tower lights offer high-quality, true-color, bright LED modules with six color choices and sound unit option that enable users to create a configuration best suited to their application needs.

The Harmony XVU tower lights enable quick and flexible installation, either directly on the machine, with a 100 mm pole, or with an adjustable pole. It can also be mounted upright, at an angle, or on the wall using a three-in-one flexible mounting base.

## > Key Features:

- Innovative and sleek design
- Stackable up to 5 lens units or 4 lens units and a buzzer, per tower
- Six super bright illuminated signaling units (no bulb to replace) — available in red, orange, green, blue, yellow (multi-color unit only), and white
- Seven light pattern options — steady, blinking (two speeds), flashing (two speeds), or rotating (two speeds) with the multi-color unit
- Available sound unit (buzzer) with up to 85 dB volume
- Quick and flexible installation
- Two body colors — black or silver with 24 VDC or 100 – 240 VAC voltage options (PNP or NPN)
- IP 65 for illuminated units, with no additional sealing kit needed and IP 54 for buzzer
- CE, UL®, and CSA® certified

Make the most of your energy<sup>SM</sup>
