

PAB-305/SW - Loudspeaker Box

This series of miniature PA speakers is suitable for versatile applications. The full range systems with neutral sound tuning impress by a good speech intelligibility and a high-quality music reproduction, no matter whether used as unobtrusive speakers in fixed installations, as near-field monitor speakers in mobile applications or even as a small full range solution with subwoofer support. The black or white systems with a compact and unobtrusive design can ideally be integrated into existing architecture. Miniature PA speaker system, 200 WMAX, 8 Ohm

- Very compact full range bass-reflex system
- 13 cm (5") full range speaker
- High-pass filter for the application from 140 Hz on with an additional subwoofer
- High-quality MDF wooden cabinet in black (SW) or white (WS), with metal protective grille
- Multi-purpose positioning and installation options
- 4 x M8 threaded inserts for suspended installation
- 2 x M6 threaded inserts suitable for bracket LST-402 x SPEAKER terminal in/out
