The CT-222 / 225 Camera Housing

The CT-222 / 225 are the latest additions to the C-Tech range of camera housings. Their compact size offers the possibility of siting a CCD camera unobtrusively and at very low cost. These camera housings are manufactured primarily for indoor locations, where a degree of dust protection is required.

Each housing comes supplied, in white, with cable glands and terminal blocks as standard.

Designed to mount on the CT-B-2 and any of the CT-E range of fixing brackets. These housings can also be suspended from any bracket with a standard 1/4" UNC thread.

For Housing Mounting details please refer to Technical Specification page.

Model	Interior Dimensions(mm)			Exterior Dimensions(mm)			Weight(Kg)
	Length	Width	Height	Length	Width	Height	
CT-222	222	74	73	226	78	74	0.47
CT-225	225	97	97	280	100	100	0.72
