# **Material Safety Data Sheet**

Revision Number: 002.2

## 1. PRODUCT AND COMPANY IDENTIFICATION

499(TM) Super Bonder® Thermal Product name: **IDH number:** 135471 **Cycling Resistant Instant Adhesive** Gel Product type: Cyanoacrylate Item number: 49945 **United States** Region: Contact information: Company address: Henkel Corporation Telephone: 860.571.5100 MEDICAL EMERGENCY Phone: Poison Control Center One Henkel Way Rocky Hill, Connecticut 06067 1-877-671-4608 (toll free) or 1-303-592-1711 TRANSPORT EMERGENCY Phone: CHEMTREC 1-800-424-9300 (toll free) or 1-703-527-3887 Internet: www.henkelna.com 2. HAZARDS IDENTIFICATION **EMERGENCY OVERVIEW** HMIS: Physical state: Gel, Liquid HEALTH: 2 2 FLAMMABILITY: Color: Colorless, Straw Odor: Sharp, Irritating PHYSICAL HAZARD: 1 **Personal Protection:** See MSDS Section 8 WARNING: COMBUSTIBLE LIQUID AND VAPOR. MAY CAUSE EYE AND RESPIRATORY TRACT IRRITATION. BONDS SKIN IN SECONDS. Relevant routes of exposure: Skin, Inhalation, Eyes **Potential Health Effects** Inhalation: Exposure to vapors above the established exposure limit results in respiratory irritation, which may lead to difficulty in breathing and tightness in the chest. Bonds skin in seconds. May cause skin irritation. Cyanoacrylates have been reported to cause Skin contact: allergic reaction but due to rapid polymerization at the skin surface, an allergic response is rare. Cyanoacrylates generate heat on solidification. In rare circumstances a large drop will burn the skin. Cured adhesive does not present a health hazard even if bonded to the skin. Irritating to eyes. Causes excessive tearing. Eyelids may bond. Eve contact: Ingestion: Not expected to be harmful by ingestion. Rapidly polymerizes (solidifies) and bonds in mouth. It is almost impossible to swallow. Existing conditions aggravated by Eye, skin, and respiratory disorders. exposure: This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200).

See Section 11 for additional toxicological information.

#### 3. COMPOSITION / INFORMATION ON INGREDIENTS

Hazardous components	CAS NUMBER	%
Ethyl 2-cyanoacrylate	7085-85-0	60 - 100
Treated fumed silica	67762-90-7	5 - 10
Thickener	Proprietary	5 - 10

4	4. FIRST AID MEASURES	
Inhalation:	Move to fresh air. If symptoms persist, seek medical advice.	
Skin contact:	Do not pull bonded skin apart. Soak in warm soapy water. Gently peel apar using a blunt instrument. If skin is burned due to the rapid generation of hea by a large drop, seek medical attention. If lips are bonded, apply warm wate to the lips and encourage wetting and pressure from saliva in mouth. Peel o roll lips apart. Do not pull lips apart with direct opposing force.	
Eye contact:	Immediately flush with plenty of water for at least 15 minutes. Get medical attention. If eyelids are bonded closed, release eyelashes with warm water covering with a wet pad. Do not force eye open. Cyanoacrylate will bond to eye protein and will cause a lachrymatory effect which will help to debond th adhesive. Keep eye covered until debonding is complete, usually within 1-3 days. Medical attention should be sought in case solid particles of polymeriz cyanoacrylate trapped behind the eyelid caused abrasive damage.	
Ingestion:	Ensure breathing passages are not obstructed. The product will polymerize rapidly and bond to the mouth making it almost impossible to swallow. Saliv will separate any solidified product in several hours. Prevent the patient from swallowing any separated mass.	
Notes to physician:	Surgery is not necessary to separate accidentally bonded tissues. Experien has shown that bonded tissues are best treated by passive, non-surgical first aid. If rapid curing has caused thermal burns they should be treated symptomatically after adhesive is removed.	
5. F	IRE FIGHTING MEASURES	
Flash point:	80 - 93.3 °C (176°F - 199.94 °F) Tagliabue closed cup	
Autoignition temperature:	485 °C (905°F)	
Flammable/Explosive limits - lower:	Not determined	
Flammable/Explosive limits - upper:	Not determined	
Extinguishing media:	Carbon dioxide. foam Dry powder. Water spray or fog.	
Special firefighting procedures:	Wear a self-contained breathing apparatus with a full face piece operated in	
	pressure-demand or other positive pressure mode.	
Unusual fire or explosion hazards:	pressure-demand or other positive pressure mode. None	

Trace amounts of toxic and/or irritating fumes may be released and the use of breathing apparatus is recommended.

# 6. ACCIDENTAL RELEASE MEASURES

Use personal protection recommended in Section 8, isolate the hazard area and deny entry to unnecessary and unprotected personnel.

Environmental precautions:	Do not allow product to enter sewer or waterways. Ventilate area.
Clean-up methods:	Do not use cloths for mopping up. Flood with water to complete polymerization and scrape off the floor. Cured material can be disposed of as non-hazardous waste.

Hazardous combustion products:

## 7. HANDLING AND STORAGE

Handling:

Prevent contact with eyes, skin and clothing. Do not breathe vapor and mist. Wash thoroughly after handling. Avoid contact with fabric or paper goods. Contact with these materials may cause rapid polymerization which can generate smoke and strong irritating vapors, and cause thermal burns.

Storage:

Keep in a cool, well ventilated area away from heat, sparks and open flame. Keep container tightly closed until ready for use.

For information on product shelf life contact Henkel Customer Service at (800) 243-4874.

### 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Employers should complete an assessment of all workplaces to determine the need for, and selection of, proper exposure controls and protective equipment for each task performed.

Hazardous components	ACGIH TLV	OSHA PEL	AIHA WEEL	OTHER
Ethyl 2-cyanoacrylate	0.2 ppm TWA	None	None	None
Treated fumed silica	10 mg/m3 TWA Inhalable dust. 3 mg/m3 TWA Respirable fraction.	15 mg/m3 TWA Total dust. 5 mg/m3 TWA Respirable fraction.	None	None
Thickener	None	None	None	None
Engineering controls:	•	own-draft exhaust vent	0	
Respiratory protection:	Use NIOSH ap limit(s).	proved respirator if the	ere is potential to exce	ed exposure
Eye/face protection:	Safety goggles	or safety glasses with	side shields.	
Skin protection:	Use nitrile glov	es and aprons as nece	essary to prevent cont	act. Do not use

#### 9. PHYSICAL AND CHEMICAL PROPERTIES

PVC, nylon or cotton.

Physical state:
