

# Upgrade to Your Ultimate Scope

**Get all\* licensed application software for the 2000, 3000, or 4000 X-Series for one incredibly low price!**

**Start date:** April 1, 2014 | **End date:** September 30, 2014

For a limited time, we are offering you an incredible investment protection opportunity with the new Upgrade to your Ultimate Scope offer. Whether you are a loyal Agilent X-Series customer or looking to purchase your first Agilent oscilloscope, you can take advantage of a new oscilloscope application bundle that will enable ALL software applications (including DVM and Wavegen) on your InfiniiVision X-Series oscilloscope for the price of one option!

Contact your Agilent authorized distribution partner for more information or to place an order: [www.agilent.com/find/distributor](http://www.agilent.com/find/distributor)

The Agilent InfiniiVision X-Series oscilloscopes offer entry-level prices with superior performance and integrated capabilities that are not available in any other oscilloscope in this class; giving you the ultimate scope.

- **Superior visualization** of your signal with the fastest waveform update rate and the largest display in this class.
- **Ultimate instrument integration** with the power of up to 5 integrated instruments: oscilloscope, digital channels (MSO), integrated WaveGen function/arbitrary waveform generator, integrated digital voltmeter, and a serial protocol analyzer.
- **Industry-leading investment protection** with the industry's first fully upgradable oscilloscope, including bandwidth, so you can purchase what you need today and upgrade it at any point in the future.

*Offer conditions:*

- \* *The application bundles only include options listed in the table on the next page. MSO, bandwidth upgrade licenses, and later-to-be-released options are not included.*
- \* *This offer starts April 1, 2014, and ends September 30, 2014.*
- \* *The application bundles can be applied to any existing (already owned) or new purchase InfiniiVision 2000, 3000, or 4000 X-Series oscilloscope.*
- \* *All options included in the application bundle will install in one bundled license. There is no need to install each option individually.*
- \* *Any existing option that is already installed on the oscilloscope downloading the application bundle will remain enabled.*
