Freez-It® Antistat

PRODUCT DESCRIPTION
Freez-It® Antistat is engineered for locating thermal intermittent electrical components or cooling printed circuit boards with minimal static generation. This circuit refrigerant system is nonflammable, residue-free and provides fast cooling action.
- Minimal static generation
- Nonflammable
- High heat transfer
- Low static generation
- Noncorrosive
- Lowers temperature to -60°F (51°C)
- Ultra pure, filtered to <0.2 microns
- Leaves no residue
- Nonabrasive on most surfaces
- Dries fast
- Contains no CFCs or HCFCs

TYPICAL APPLICATIONS
Freez-It® Antistat can be used to:
- Cool Equipment for Testing
- Dissipate Heat While Soldering or Desoldering
- Isolate Thermal Intermittent Components
- Test Circuit Traces for Continuity
- Test Printed Circuit Boards for Stress Fractures
- Track Static Sensitive Components

COMPATIBILITY
Freez-It® Antistat is generally compatible with most materials used in printed circuit board fabrication, including sensitive plastics and compounds. With any circuit refrigerant, compatibility must be determined on a non-critical area prior to use.
Material | Compatibility
---|---
Buna-N | Fair
Graphite | Good
HDPE | Good
LDPE | Good
Lexan™ | Poor
Neoprene | Good
Cross-Linked PE | Good
Polyacrylate | Poor
Polystyrene | Good
PVC | Good
Silicone Rubber | Fair
Teflon™ | Good
Viton™ | Poor

CFC, HCFC, CL. SOLV., VOC, and HFC numbers shown are the content by weight. Ozone depletion potential (ODP) is determined in accordance with the Montreal Protocol and U.S. Clean Air Act of 1990. The ODP of this product is 0.0. It is the sum of the ODP of the substances that may contribute to the depletion of stratospheric ozone, based upon the weight of each substance in the product’s formulation.

**NOTE:**
This information is believed to be accurate. It is intended for professional end users having the skills to evaluate and use the data properly. CHEMTRONICS does not guarantee the accuracy of the data and assumes no liability in connection with damages incurred while using it.

**USAGE INSTRUCTIONS**
For industrial use only.
Read MSDS carefully prior to use.
No special surface preparation is required prior to using Freez-It® Antistat. Direct spray onto the area to instantly cool components, circuit boards or adhesives. For optimum performance and pin point control, use Freez-It® Antistat with the attached extension tube.
