

0.1" Desoldering Braid

10ft Reel

Description:

Tenma desoldering braid is manufactured in the USA, to stringent control standards ensuring maximum quality and uniform performance. The copper braid utilizes only the best fine gauge oxygen-free strands, which are fully coated with specially formulated Type R rosin flux. The flux greatly enhances wick action ensuring fast reliable solder removal. Additionally, it cleans the connection, ensuring ease of re-soldering, while providing a protective coating to the wick to prevent oxidation, prolonging shelf life of the wick. Packaged in a variety of lengths and widths, a size is available to suite virtually any need.

Specifications:

Length : 10 feet
Width : 0.1"
