

High Isolation Switch - A/B/C

MCM Part #: 33-1490 | Distributed By MCM Part #: 33-1490

High Isolation A/B/C Switch

Perfect for selecting between three RF sources into a single television. Ideal for switching multiple antennas pointed in different directions, or selecting between an antenna and cable or satellite. All connections are "F" type female.

- Three-way coaxial A/B/C switch
- Use for antenna, CATV or VCR
- Greater than 65dB isolation through 550MHz and 50dB through 900MHz
