

## **Wiring Pencil with Brake: RRP-123**

### **Wiring Pencil with Brake: RRP-123**

This Wiring Pencil or Wiring Pen with Brake is preloaded with a Solderable Enamel Wire Bobbin or wire spool.

Based on the standard version, the wiring pencil has been enhanced and now incorporates a finger brake, which operates against the bobbin of wire or wire spool and accurately controls wire tension.

A full, ready to use bobbin of solderable enamel wire is supplied with each pencil

This wiring tool, is recommended for: more advanced students, technicians, engineers or hobbyists for the assembly and wiring of logic, microprocessor or discrete electronic circuits using the Roadrunner Wiring System, Surface Mount Technology (SMT) Wiring; for end of line or Field Service for PCB or PWB track repair, rework, shorting links or modifications.
