Amphenol Industrial Solar Technologies (AIST) offers products and solutions for all segments of the solar electric system. AIST understands the need for efficient (low loss) power transfer, highly reliable, and cost effective solutions that are required to be competitive in this industry. We can provide panel manufacturers, installers, and OEM's with connectivity products for both thin film and crystalline silicon technologies. Amphenol® has a broad range of technologies to help minimize the cost of inverters and power conditioners. Amphenol Industrial can help you power the planet with the sun. The H4 PV Connector is just one product out of many solar interconnect solutions AIST has to offer.

H4 PV Connector

Amphenol Industrial Solar Technologies (AIST) offers products and solutions for all segments of the solar electric system. AIST understands the need for efficient (low loss) power transfer, highly reliable, and cost effective solutions that are required to be competitive in this industry. We can provide panel manufacturers, installers, and OEM's with connectivity products for both thin film and crystalline silicon technologies. Amphenol® has a broad range of technologies to help minimize the cost of inverters and power conditioners. Amphenol Industrial can help you power the planet with the sun. The H4 PV Connector is just one product out of many solar interconnect solutions AIST has to offer.

H4 Features:
- UL 1000V, TÜV 1500V, and CSA approved
- Fully intermateable with industry standard
- Meets all new NEC 2008/2011 requirements
- Quick and easy secure snap lock mating
- Simple unlocking tool meets NEC requirements
- Long-term UV and Ozone resistance
- Highest current rating in industry
- RoHS compliant
- Complete Cable Assemblies available
- Low contact resistance means low loss
- Ready for field assembly

H4 PV Connector

Technical Data

- **Rated current**: 32A (2.5mm, AWG14), 40A (4.0mm, AWG12), 44A (6.0mm, AWG10), 65A (10.0mm, AWG8)
- **Rated voltage**: 1500V (IEC/TÜV), 1000V (UL)
- **Test voltage**: 6kV for 1 minute, 10kV impulse (1.2/50µS)(IEC)
- **Typical contact resistance**: 0.25mΩ
- **Contact material**: Copper, tin plated
- **Contact system**: Machined/Cold Formed or Stamped & Formed with RADSO® insert
- **Insulation material**: PC
- **Locking mechanism**: Snap-lock, special unlock tool required to un-mate as required by NEC2008
- **Cable strain relief**: Compression gland with ratcheting gland nut
- **Degree of protection**: IP68 (1 meter, 1 hour) mated
- **Safety class**: II (IEC61140)
- **Pollution degree**: 2 (IEC60664)
- **Overvoltage category**: III (IEC60664)
- **Flame class**: UL94-V0
- **Ambient temperature range**: -40°C to +85°C
