TLS 2200® Tamper Indicating Materials

Brady offers standard and custom engineered tamper indicating materials to meet your particular product protection needs. These tamper seals and tamper indicating materials provide irreversible, visible evidence of tampering to protect against warranty fraud, product tampering, alteration, and misuse or asset theft. Tamper indicating materials can protect your product's unique model and serial number, and help reduce the chance of liability issues due to unauthorized service or misuse.

TLS 2200® Tamper Indicating Materials:

B-351 Destructible Vinyl Material Color: White Finish: Matte

White matte vinyl material with permanent adhesive. Material fractures to show signs of tampering and prevent one-piece label removal. Use caution when removing from liner as material is fragile.

Performance Attributes:

TLS 2200® Tamper Indicating Materials:

B-352 Destructible Vinyl Material Color: Silver Finish: Matte

Metallized matte vinyl material with permanent adhesive. Material fractures to show signs of tampering and prevent one-piece label removal. Use caution when removing from liner as material is fragile.

Performance Attributes:

TLS 2200® Tamper Indicating Materials:

B-7546 VOID Footprint Polyester Material Color: White Finish: Gloss

White glossy polyester tamper-indicating material leaves a "VOID" footprint when label is removed to prevent reuse. Adhesive doesn't allow repositioning and requires minimal handling in order to prevent a premature "VOID" pattern.

Performance Attributes:
