Acoustic Dampening Pad

MCM Part #: LS00916 | Distributed By MCM Part #: LS00916

Perfect for internal speaker enclosure dampening, this wadding provides the perfect solution to eliminating problematic low frequency internal resonance.

Made from 2/3 sheeps wool and 1/3 polyester fiber, this material is a must for any speaker building or upgrade project.

Package contains two sheets, approximate dimensions: 25" (H) x 13" (W) x 1 3/8" (D).
