

Add elegance and comfort to commonplace tasks with the Mad Catz M.O.U.S. 9 Wireless Mouse.

### Stylishly Future-proof Your Mouse

Add elegance and comfort to commonplace tasks with the Mad Catz M.O.U.S. 9 Wireless Mouse. Featuring the latest Bluetooth technology and created for everyday computing, a host of devices are controllable with just one mouse. As more and more smart devices adopt Bluetooth 4.0, you'll find comfort in knowing that your mouse won't require an upgrade. With a fully adjustable palm rest and 10 buttons ready to accept user-defined commands, the M.O.U.S. 9 with GameSmart technology gives new meaning to both convenience and efficiency.

### GameSmart Multi-platform Compatible via Bluetooth Smart Technology

Bluetooth Smart, featuring Bluetooth 4.0 Low Energy (BLE), is a new, power-efficient version of Bluetooth wireless technology, already integrated into many modern computing devices. When paired with a Bluetooth Smart-compatible device, setup for the M.O.U.S. 9 Wireless Mouse is super-quick and very easy. Seamlessly connect to PCs, Macs, tablets, smartphones and laptops in a matter of minutes.

### USB Nano Dongle for Devices without Bluetooth

No Bluetooth in your device? No problem! Just use the included USB nano dongle – which conveniently stores in the base of the M.O.U.S. 9 – and get connected. Its diminutive size won't add any bulk to your device, and it's nearly invisible once attached.

### Up to 1 Year of Use from 1 AA Battery

Thanks to integrated Bluetooth Smart technology, the M.O.U.S. 9 is a power-conserving hero. The included AA battery provides up to one year's worth of energy, more than twice that of the previous generation of Bluetooth mice.

### Usable on Virtually ANY Surface, Including Glass

A versatile laser sensor permits use on just about any surface. Whether your work area is made of wood or glass or composite materials, it's already equipped for the M.O.U.S. 9.

### Powerful GameSmart Technology

Products featuring GameSmart technology operate seamlessly with a variety of different mobile devices. GameSmart enables near-universal compatibility for PCs and Macs, as well as the latest generation of tablets such as the Microsoft Surface. By utilizing Bluetooth Smart, GameSmart wireless devices also feature simplified setup and extended battery life.

When one product functions with a multitude of devices, you'll find comfort in knowing that a new device won't require yet another purchase. Whether on your laptop, desktop, or tablet, the M.O.U.S. 9 is your go-to mouse.

### Adjustable Palm Rest

To improve your comfort and provide a custom fit, the M.O.U.S. 9's palm rest adapts to your hand. Easily adjust the palm rest's overall length to suit your grip style.

### Intuitive Drag-and-Drop Software Interface

With assistance from an easy-to-use software application, you can configure any of the 10 buttons on the M.O.U.S. 9 to suit your needs. Easily create specific commands to simplify tasks within programs like Excel, Word, Photoshop and PowerPoint. Available for download are pre-configured profiles for Adobe Creative Suite and Microsoft Office.

### Custom Travel Pouch Included

When the need for a great mouse finds you beyond the comforts of home, the included travel pouch provides convenient storage while helping to protect your peripheral from damage.
