

SKiiP 26NABI066V3

MiniSKiiP® CIB IPM

3-phase bridge rectifier +
brake chopper + 3-phase
bridge inverter

intelligent power module

SKiiP 26NABI066V3

Features

- Contact springs for solder-free and quick assembly
- Trench-Field-Stop IGBT
- Freewheeling diodes in CAL technology
- HVIC gate driver in SOI technology with advanced level shifter
- Matched propagation delay
- Over-current and under-voltage detection
- Interlock logic for cross conduction protection
- Multi-purpose error input
- Integrated temperature sensor (NTC)
- RoHs compliant
- UL recognised file no. E63532

Typical Applications*

- Industrial & consumer drives
- Power supplies (SMPS & UPS)

Remarks

- Product reliability results valid for $T_j \leq 150^\circ\text{C}$
- Case temp. limited to $T_c = 125^\circ\text{C}$ max. (for baseplateless modules $T_c = T_s$)

Footnotes

E8	E8	Auxiliary emitter terminal of brake chopper IGBT
P	P	+DC terminal
+RECT	+RECT	Bridge rectifier positive voltage output terminal
-RECT	-RECT	Bridge rectifier negative voltage output terminal
+T	+T	Temperature sensor terminal (+)
-T	-T	Temperature sensor terminal (-)

Pin and signal description

pinout, dimensions

This is an electrostatic discharge sensitive device (ESDS), international standard IEC 60747-1, Chapter IX

* The specifications of our components may not be considered as an assurance of component characteristics. Components have to be tested for the respective application. Adjustments may be necessary. The use of SEMIKRON products in life support appliances and systems is subject to prior specification and written approval by SEMIKRON. We therefore strongly recommend prior consultation of our staff.
