Nylon & Adhesive Shelf Life

If products are kept under the Ideal Storage Conditions, shelf life is 1 year from date of shipment.

Ideal Storage Conditions

Stored in the original unopened bags at 73°F (23°C) and 50% relative humidity.

Temperature Considerations

Ideal application temperature for most adhesives is 70°-100°F (21°-38°C). Lower application temperatures should be avoided as the adhesive will be too firm and may not 'wet out' sufficiently.
