

Metal Plasterboard Plug

Pack of 100

Description:

Specially designed zinc die-cast plug for use in plasterboard, chipboard, aerated concrete etc. To install, simply drill a pilot hole and screw the plug into the wall with a Phillips or Pozidriv driver. The object to be mounted is then screwed into the back of the plug as with a normal wall plug. For best results ensure screw length is 20mm more than the thickness of the object to be mounted.

Features:

- Specially designed cutting tip for quick installation into plasterboard
- Supplied with No. 6 × 35mm (1 3/8") pozi driv roundhead screws
- Alternative screws (6-10 gauge) can be used if required for different fixtures
- The overall length of the plug is 38mm with a maximum screw penetration of 25mm (1")
- Supplied in packs of 100

Specifications:

External Length / Height : 35mm
Material : Metal
Suitable Screw : 6-10
