

PWM Cape

Part Number: 999-0004397

Descriptions

Picture Coming Soon The PWM Cape provides 32 channels of PWM output, addressed over an I2C interface. The three pin connectors are wired in a standard servo pinout, and power to the connectors can be provided from a screw terminal block on the end of the board.

Specifications

Followings are some specifications of the PWM Cape:

Mechanical Specifications

Size	2.15" x 2.825"
Layers	2
PCB Thickness	.062"
RoHS Compliant	Yes
