The ideal gaming duo - wireless keyboard & optical mouse

Looking for dedicated gaming multimedia keyboard and optical mouse with wireless capabilities?

The new **KMG9000-W** is your ideal partner for a better gaming experience. With the supplied 2.4 Ghz, installation-free wireless nano adapter means you can now enjoy a wire-free enhanced multimedia and gaming keyboard.

And to help give you a complete all-in-one solution we have bundled a high quality, optical 3-button mouse with a curved sculpture for a more comfortable fit, even after extended game play.

The complete package is not just ideal for gamers, but also general computer users too. Colour-coded keys as used by the majority of games and other key apps, extended internet and multimedia shortcuts, all bundled with a completely driverless wireless USB nano adapter which is compatible with almost all operating systems and hardware.
