1. SAFETY

This HD Receiver has been manufactured to satisfy the international safety standards. Please read the following safety precautions carefully.

**MAINS SUPPLY:** External DC 12V Adapter

**OVERLOADING:** Do not overload wall outlet, extension cord or adapter as this may result in fire or electric shock.

**LIQUIDS:** Keep liquids away from the HD Receiver. The apparatus shall not be exposed to dripping or splashing and that no objects filled with liquids, such as vases, shall be placed on the apparatus.

**CLEANING:** Disconnect the HD Receiver from the wall outlet before cleaning. Use a light damp cloth (no solvents) to dust the HD Receiver.

**VENTILATION:** The slots on top of the HD Receiver must be left uncovered to allow proper airflow to the unit. Do not stand the HD Receiver on soft furnishings or carpets. Do not expose the HD Receiver to direct sunlight or do not place it near a heater. Do not stack electronic equipments on top of the HD Receiver.

**ATTACHMENTS:** Do not use any attachments that are not recommended as these may cause hazard or damage the HD Receiver.

**CONNECTION TO THE SATELLITE DISH LNB:** Disconnect the HD Receiver from the mains before connecting or disconnecting the cable from the satellite dish.

**CONNECTION TO THE TV:** Disconnect the HD Receiver from the mains before connecting or disconnecting the cable from the satellite dish. FAILURE TO DO SO CAN DAMAGE THE TV.

**EARTHING:** The LNB cable MUST BE EARTHED to the system earth for the satellite dish.

**LOCATION:** Place the HD Receiver indoor in order not to expose to lightening, rain or sunlight.

2. INTRODUCTION

Thank you for purchasing the HD Receiver. This HD Receiver is fully compliant with the international DVB standard and thus transmits digital images, sounds, information guides and teletext directly to your TV through the satellite broadcasting. Now you can comfortably see and receive digitally transmitted music, news, movie and sports satellite broadcasts in your office or at your home. You can enjoy interesting games embedded in HD Receiver.

In service search section, both the automatic service search method and the manual search mode are provided. Also it supports DiSEqC 1.0, 1.2 and USALS, enabling you to move your antenna in order to focus preferred satellite. You can save up to 5000 TV and Radio services and work around with the favourite, Lock, Delete, Move and Sort functions. The menu is very modern and supports multiple languages. All functions can be carried out using the remote control and some of the functions can also be carried out using the front panel. The HD Receiver is easy to use and adaptable for future advances. Please be aware that new software may change the functions of the HD Receiver.
If you have any difficulties concerning the operation of your HD Receiver, please refer to the relevant section of this manual, including the 'Troubleshooting'. This Manual will provide you with useful information on using the HD Receiver.

3. FEATURES

- MPEG-Fully DVB-S / DVB-S2 (H.264) HD compliant
- 6000 channels (TV and Radio) programmable
- Multilingual menu text support
- Channel switching time less than 1 second
- Channel list editing
- Favourite channel list editing
- True-colour On-Screen Display (OSD)
- Full Picture In Graphic (PIG) function
- Electronic Programme Guide (EPG) for on screen channel information
- Subtitle supported
- Teletext supported by VBI insertion and software emulation
- Parental lock facility by channel and programme event
- Programme and Channel information transfer from receiver to receiver
- Exciting games embedded
- Dolby Digital Bit-Stream output via HDMI
- DiSEqC 1.0, 1.1, 1.2 and USALS
- HDMI FullHD (1080p) Video/Audio Output
- 2x USB 2.0 Host
- 4 Digit LED Display for service information (optional)
- RTC (Real-Time-Clock)
- Time Shift
- Video Recording
- Recording one channel and Time Shifting another channel (optional)
You can power on/off the receiver, operate on screen menu, and use a variety of hot key function.

**POWER**
To switch your receiver on from standby or standby to on.

**MUTE**
Used to enable or disable the audio

**NUMERIC KEYS**
Used to select channels or enter programming parameters

**TV / RADIO**
Receiver switches between TV and Radio mode.

**ZOOM**
Press key select zoom times, from X1 to X16.

**RECALL**
Return to the previous menu or status.

**TV/SAT**
Receiver switches between TV and receive mode.

**INFO**
To display channel status or various programme information of current service.

**EPG (Electronic Programme Guide)**
Display the Programmes guide on screen when available.

**MENU**
Displays the Main Menu on the screen, or return to the previous menu or status.

**EXIT**
Cancel the user selection and return to the viewing mode from a menu.

**OK**
To select menu option, or to updated on entry.

**<,> KEY**
To adjust volume level, or to move cursor left or right in the menu.

**^,v KEY**
To change channels, or to move cursor up or down in the menu.

**PAGE+/PAGE-**
To move up the cursor to the next or previous page in the menu or channel list.

**REC**
Has different functions per menu.

**Teletext**
Shows teletext information of the current channel supports.

**Subtitle**
Subtitle Display.

**UHF**
In case your TV is connected through RF Modulator (UHF), select output channel number between CH21 and CH69 with up and down key.

**FIND**
Use to prompt find channels sort by character.

**TIMER**
Press timer key you can setup up the Standby time.

**V. FORMAT**
Press P/N button to switch the display mode among "Auto-> by native TV<->480i->480p->576i->576P->720p-50->720p-60->720P-50->720P-60->1080i-50->1080i-60->1080p-50->1080p-60".

**FAV (FAVOURITE)**
To set receiver to the favourite server mode, display the favourite channel.

**FOLDER**
Press this button to enter the Record Manager menu directly.

**AUDIO(Red Key)**
Audio channels setup, to select audio mode; Left, Right, Stereo, Mono.

**OPTION(GREEN KEY)**
Shows NVOD information of the current channel supports.

**SAT**
Display the satellite list at normal picture.
Play Mode
Select the play mode in MP3 or JPEG player.

USB
To remove the USB Hard Disk safely.

TMS (Time Shift)
Press this button to display Time Shift info bar.

Play
To play the MP3, JPEG, or Record files.

Stop
To stop the Time Shift, recording, or MP3/JPEG player.

PAUSE
Used to select the freeze function.
Press once to freeze the screen picture.

FB
To start Fast Backward function.

FF
To start Fast Forward function.

SB
To start Slow Backward function.

SF
To start Slow Forward function

PREV/NEXT
Switch to preview or next file in play mode
5. Front panel

POWER KEY: To switch the receiver power on/stand by
MENU KEY: To enter into the main menu.
<,> KEY: To adjust volume level, or to move cursor left or right in the menu.
^, v KEY: To change channels, or to move cursor up or down in the menu
OK KEY: To see TV/Radio channel list, or to confirm in the menu.
Remote Sensor: Detects infrared signal from remote control unit
POWER Indicator: while the receiver is power on and at standby mode.
Signal Indicator: When receiving signal is strong, the signal indicator is lighted.
Card Slot: One slot CA Interface for Conax,
Common Interface: One socket for Conditional Access Modules CAM.
USB: USB 2.0 Host, connect to USB hard disk, or flash disk
Display: (LED type) Indicates operating status of receiver

6. Rear Panel

Please refer to the diagram above for all possible connections of your receiver
Do not connect the unit to the mains socket until all other connections have been made and checked.

POWER ON/OFF SWITCH: To switch ON/OFF the receiver power supply.
LOOP: This enables the connection of another receiver.
LNB IN 13/18V 500mA MAX: This port is to connect the coaxial cable from LNB of your Dish.
RF OUT: This enables the connection of another receiver.
RF IN: This port is to connect the coaxial cable from terrestrial antenna.
TV: This is used to connect your TV through SCART cable.
VIDEO: This RCA connector is used to connect any external video.
0/12V 50mA: This is used to Connect 12V to an external 0V/12V switch.
AUDIO R/L: These RCA connectors are used to connect any external audio amp or system.
S/PDIF: Digital Audio interface, connect to AV amplifier S/PDIF input terminal.
HDMI: Audio and Video output socket for TV set with HDMI Input Jack only.
USB: USB 2.0 Host, connect to USB hard disk, or flash disk
Ethernet: (optional) Network port, you can get a new software updates from this port.

7. Connecting Your System

There are two ways to connect the receiver to your existing TV system. We recommend using one of the following cases for the best result:
1. If you have a high definition television set, you should use a HDMI cable for best result, Plug one end of the cable into the HDMI socket on the receiver, and the other end into the matching socket on your television. In this case, you do not have to make audio connections because the HDMI connector can output stereo audio or Dolby Digital audio.
2. Connect one end of RCA cable to the RCA jack on the back of the receiver and the other end to a RCA jack on your TV.
Finally connect the coaxial cable from the LNB of your Dish to the LNB IN jack on the receiver.

**With External Audio / Hi-Fi System**
To connect any external Audio Hi-Fi system, the receiver has been provided with RCA connector at the back of the receiver marked with AV OUT.
Connect an RCA cable from the AV OUT jack on the back of the receiver to the LINE, AUX, SPARE OR EXTRA input jacks on your Hi-Fi System.

**7.1 TV with Motorized System (DiSEqC 1.2)**
Connect one end of your coaxial cable to the LNB IN connector on the receiver and the other end to the REC or Receiver connector on the DiSEqC 1.2 motor.
Connect the coaxial cable from the LNB to the LNB connector on the DiSEqC 1.2 motor.

All our receivers are designed to be DiSEqC 1.0 and DiSEqC 1.2 compatible.
This allows multiple antennas to be connected to the receiver at the same time.
If you have two or more fixed antennas or LNBs, then we recommend you use a DiSEqC 1.0 switch.
Connect the coaxial cable from the first LNB to the LNB 1 or LNB A input connector of the DiSEqC switch.
Do the same for any other LNBs that you have.
Connect one end of a coaxial cable to the RF output connector of the DiSEqC switch, connect the other end to the LNB IN socket on the receiver.
To the digital receiver, you can connect either a single satellite antenna directly or LNB of multi-feed equipment.
8. Basic Operations

8.1 Turn on STB
First, press the [Device’s Main Power] to turn on the unit. When the STB is first used, there will play the first channel from the default Channel List. If the STB is not first used, STB will play the same channel as last time before turning off.

? Frequently Asked Question
Q: The power of my STB has been turned on and not in Standby mode, but the TV screen showed nothing:
A: Make sure the TV set has been set to the correct video input (not the TV channels). For example, if you have connected the unit with the Video1 input of the TV set, the TV set has to be switched to Video1.

Q: The power of my STB has been turned on and not in Standby mode, but the TV screen showed nothing except one box with “No Signal” image.
A: That means the channel, which you select, is no signal. It could be several causes:
1 The channel which you select is not in your allocate satellite. The simply solution is to change channel.
2 The signal of current TV channel is too weak. You can try to change channel to other strong signal channels. If the problems still exist, please consult your local dealer or other professionals for technical service.
3 You use the Dual LNB, and you need Modify LNB Type

8.2 Power
1 Press [Power] Key can enter the Standby state
2 In Standby state, press [Power] Key again can call back the unit and go on play the previous channel
3 User can also disconnect the device’s main power to end the Standby state.

8.3 Channel Up/Channel Down
In full screen, press [CH+/CH-] to change channel.

8.4 Volume Up/Volume Down-
In full screen, press [VOL+/VOL-] to adjust volume.

8.5 Number
In full screen, use number key and press [OK] on the Remote Control Unit to change channel.

8.6 Mute
1 Press [MUTE] key to mute the sound and the screen will show up mute OSD.
2 Press [MUTE] key again to restore sound.

8.7 Pause
1 In playing mode, press [Pause] key, the picture will be paused, but the sound of the channel will still continues.
2 Press [PLAY] key again, the screen’s picture will skip over to the current playing picture, and the sound of the channel will corresponding playing.

8.8 Recall
Press [RETURN] key will directly switch to the previous channel that you played before current channel.

8.9 Favourite
1 In full screen, press [FAV] key, it will display a window of “Favourite list” on the left of the screen, which you can watch like below.

In the window of “Favourite list “, you can move highlight by press [Channel Up/Channel Down] key to select favourite Channels.

In the window of “Favourite list “, you can press [Left/Right] key to select favourite groups Pressing [P-/P+] keys can implement the “Page up/Page down” function
10

4 Press [Exit] key to exit the current window.

? Frequently Asked Question

Q: Why the screen displays "No Favourite Channel", after pressing [Favourite] key?
A: It is because that you haven’t set any channels as "favourite channel". Please refer to Favourite.

8.10 Audio

1 In full screen, press [AUDIO] key can open the "Audio" window on the screen.

2 You can modify the audio track by press [Channel Up / Channel Down] key and modify the audio mode by press [Volume Up / Volume Down] key.

3 Mode: Left/Right/Stereo/Mono

In full screen, press [INFO] key (press [INFO] key and [RED] key) can open information screen, in the window shows the parameters of current channel.

8.12 EPG

1 The STB has an Electronic Programme Guide (EPG) to help you navigate channels through all the possible viewing options. The EPG supplies information such as channel listings and starting and ending times for all available channels. Press [EPG] key to display EPG screen.

2 Press [Red] key can select the channels by different group, such as by Favourite/Satellite/Provider/CAS etc.

3 Press [Green] key to select different display mode among Now EPG, Next EPG, More and Schedule, like the following picture:
8.13 **TV/RADIO**

In TV mode, pressing [TV/RADIO] key can switch to Radio mode. In Radio mode, press [TV/RADIO] key to switch to TV mode.

8.14 **Channel List**

1. In full screen, press [OK] key can enter “Channel List”.

2. Press [Red] key to change the different group. which you can watch like below.

Press [Yellow] key you can change the current channel’s property, such as FAV/ Lock/ Skip/ Delete/ Rename.

---

4. Press [Yellow] key in EPG menu can set one record timer or go to Timer List menu.

5. In EPG menu, when you select one event by high light item, you can set this event to record timer list directly by press [REC] button.

4 Press [Blue] key can open the "Sort" window like below. There are five kinds of sorting ways. You can press [Channel Up/Channel Down] key to move highlight and press [OK] key to confirm your selection.

5 The five kinds of sorting way are:
- Default: Sorting by scanning result.
- FTA/$: Sort channel through free and scramble sequence. Free channel will in the front of channel list and scramble channel will at the rear of channel list.
- Lock: Accumulated all locked channels and list in the last of TV Channel List.
- Name (A-Z): Sorting in Alphabetical Order, ignore "$" symbol.

6 Press [Up/Down] key to move highlight and press [OK] key to play the highlighted channel.

8 Press [Exit] key to exit the channel list.

8.15 Sleep

1 This function can set sleep timer. When you set a sleep timer and the time arrive, the system will enter to standby automatically.

2 Pressing [SLEEP] key, it will switch the mode between Sleep Timer Off /10/30/60/90/120 minutes.

8.16 Page Up/Page Down

In Channel list, press [Page+/Page-] key can page up and page down the channel list.

8.17 TEXT

1 Press [TTX] key in full screen, you can open teletext page on the channel which has teletext information.

2 If the channel has no teletext information, it will show "No Teletext Data" on the screen.

8.18 Subtitle

8.19 Press [Subtitle] key in full screen, you can switch subtitle on or off.

8.20 Find

1 Press [Find] key in full screen can open the "Find" window like above. You can press [Channel Up/Channel Down/Volume Up/Volume Down] key to move highlight and press [OK] key to input the selected symbol or letter into the dialogue.

2 After input each character, the programme list on the left will search the channel
according your input, and list the matched channel.

3 Move highlight to “OK” and press [OK] key can close “Find” window and you can select channel from the channels list directly.

8.20 Zoom

1 The [ZOOM] key allows you to magnify a certain area on the images
2 Press [ZOOM] key again, the image will enlarge rotate as x1, x2, x4, x6, x8, x12, x16.
3 In “x2 ~ x16” image, using [Up/ Down/ left/ right] keys to move the image center area you want to see.
4 In zoom mode, press [Exit] to close “Zoom” window.

8.21 TV/ SAT

1 Press [TV/ SAT] key can switch between TV mode and STB mode

8.22 Menu

✓ Press [MENU] key can open the menu, exit the current menu to last menu or close the window.

8.23 Video Format

1 Press [P/N] (white) key under Full Screen playback for 1st, it will show the current system outputting video resolution, continuously press this key, system will switch its outputting video resolution by sequence "480i->480p ->576i-> 576P-> 720p-50-> 720p-60-> 720P-60-> 1080i-50->1080i-60 ->1080p-50->1080p-60”.

8.24 Exit

✓ Press [EXIT] key can exit the current menu to last menu or close the window.

9. Service

When you press [Menu] key to enter menu, there will display the picture like below:

✓ Press [Up/Down] key you can select the submenu of Organizing services and Organizing favourites.
✓ Press [OK] key to enter the “Organizing Service”. If Menu Lock is “On”, it will display an dialogue for user to key in password. The default Password is “0000”.
✓ Press [Menu] key to go back to main menu.

9.1 Organizing Service

When you enter to “Organizing Service” menu, there will display the screen like below.

1. You can move highlight by press [Channel Up/Channel Down] key and [OK] key to select the programmes which you want to edit.

3. You can use [Red] key to switch different Group.

4. You can press [Green] key to select the programmes by different select mode.

5. Press colour key can implement the corresponding function in “Organizing Services”.

Groups

1. Press [Red] key can open the “Groups” window like above.

Options

1. Press [Green] key can open the “Options” window like above.

2. You can press [Up/Down] key to move highlight and press [OK] key to confirm the select mode.

Move

1. Select the channels which you want to edit in channel list by press [OK] key or other select mode.

2. Then press [Right] key to move the highlight to right toolbar.

4. Move the channels to the position which you want and press [OK] key to confirm. Like the following picture:

Lock

1. Select the channels which you want to edit in channel list by press [OK] key or other select mode.

2. Then press [Right] key to move the highlight to right toolbar.

4. Lock the channel by press [OK] key. Like the following picture:

Delete
a) Select the channels which you want to edit in channel list by press [OK] key or other select mode.
b) Then press [Right] key to move the high light to right toolbar.
c) Select Delete icon by press [Channel Up/Channel Down] key and [OK] key.
d) Delete the channel by press [OK] key.

Skip and rename
Follow the same way you can set the channel's Skip or give the new name for high light channel.

Find
1. Press[Find] key can open the “Find” window like above. You can press[Channel Up/Channel Down/Volume Up/Volume Down]key to move highlight and press [OK] key to input the selected symbol or letter into the dialogue.
2. After input each character, the programme list on the left will search the channel according your input, and list the matched channel.

3. Move highlight to “OK” and press [OK] key can close “Find” window and you can select channel from the channels list directly.

9.2 Organizing Favourites
This menu is helpful in adding and deleting services to and from the favourite group.

1 FAV List
To choose the FAV List by press “FAV” button.

2 Add
To add services into favourites, Mark the desired services by press “OK” button in Service List, press ► to choose Add mode and press “OK” button.

3 Remove
To remove services from favourites, Mark the desired services by press “OK” button in Favourite List, press ◄ to choose Remove mode and press “OK” button.

4 Move
You can reorder and move the service to the preferred position in Favourite List.

5 Rename
Select the desired FAV List by press “FAV” button, using ◄, ► buttons to choose Rename mode and press “OK” button to display keyboard, and rename it.

6 Group, Options and Find functions
Please refer to the “Organizing Services” part in this manual.
10. Installation

2. Press [OK] key to enter the “Installation”. If Menu Lock is “On”, it will display an dialogue for user to key in password. The default Password is “0000”.

10.1 Satellite Installation

Satellite

LNB Type

In this item, press [Volume Up/ Volume Down] key can switch among “Standard”, “User” and “Universal”, “Unicable” mode.

DiSEqC

DiSEqC: You can use [Volume Up/ Volume Down] key to switch options. There are several options for your selection:

a) Disable: without DiSEqC.
b) 1/2, 2/2: two ports DiSEqC
c) 1/4, 2/4, 3/4, 4/4: 4 ports DiSEqC
d) 1/8, 2/8… 8/8: 8 ports DiSEqC
e) 1/16, 2/16…16/16: 16 ports DiSEqC

Positioner

22K
You can use [Volume Up/ Volume Down] key to switch “ON / Off”. When this item is switched to “ON”, receiver will receive TV and radio input signal from 22K port. If the item is switched to “Off”, the receiver will receive all signal from 0K port.

! Notice
When you choose LNB type “Universal”, you can not modify 22K.

0/12V
You can use[Left/ Right]key to switch “on /off”.

Polarity
In “Polarity” item, [Volume Up/ Volume Down]key to switch “Auto / H / V” functions.

Toneburst
In “Toneburst” item, you can press [Volume Up/ Volume Down]key to switch “Off/On” functions.

LNB Power
In “LNB POWER” item, you can press [Volume Up/ Volume Down] key to switch: “Off、13V/18V、13.5V/18.5V” functions.

TP Edit
When you enter to “TP Edit” menu, there will display the screen like below:

1 In “Satellite” item, press[Volume Up/ Volume Down]key to switch satellite that you want to scan or press[OK]key to enter satellite list for selection.

2 In “TP Index” item, you not only can use [Volume Up/ Volume Down]key to select transponder but also can use[Add] and [Delete]functions.

◇ When you press[Green] key, it will display “New TP” in “TP Index” item; You should set the parameters of “TP Frequency” and “Symbol Rate” for this new transponder. The parameters of “TP Frequency” and “Symbol Rate” can set by number keys. The available range are “3000~13450 MHz” and “1000~45000Ks/s”.

◇ When you press[Yellow] key, there will show up a warning message for reminding whether you will delete the current transponder or not. If you select “Yes”, the current transponder will be deleted, and the total account of transponder will reduce 1 correspondingly.

◇ When you press [Blue] key, there will show up a warning message for reminding whether you will delete all transponders or not. If you select “OK”, all transponders will be deleted.

3 For the existed transponder, you also can use number keys to modify the parameters of “TP Frequency” and “Symbol Rate”.

4 When you complete your modification, Press [Red] key, it will show up a dialog to ask you scan mode, programme type, scan type and NIT Search on/off. After you set up, press [OK] key to start scanning.

5 In the “TP Scan” item, press [Exit] key to exit the scanning and save the current parameters.

Single Scan
1 Press [Red] key, it will show up a dialog to ask you scan mode (means you want to scan all channels or only scan free channels), programme type (means you want to scan all channels or only scan TV/Radio channels), scan type (means preset scan, that is searching the existed TP. Automatic Scan means blind scan. It is no need existed TP info) and NIT Search on/off. After you set up, press [OK] key to start scanning.

2 Press [White] key into the blind scanning immediately.

**TP Scan**

Press [Green] key to scan current TP’s programmes.

**Auto DiSEqC**

Press [Blue] key to run Auto DiSEqC function, it can find the satellite connect to which port automatically.

**Blind Scan**

Press [White] key can directly into blind scan mode to scan the current satellite.

### 10.2 Auto installation

"Auto Installation" is a very new and convenient function. It will automatically detect all dishes connecting to this machine and scan the available services belonging to the satellite matched according to satellites and transponders data in current database. You don’t have to input any parameter of your antenna settings. Just press “OK” button to enter this “Auto Installation” menu then it starts scanning and shows you the result at the end of scanning.

### 10.3 Satellite Guide

When you enter to “Satellite Guide” menu, you will see the screen like below:

“Satellite Guide” is use for user to enter local longitude; local latitude and satellite longitude. By the evaluation from the receiver evaluate the antenna azimuth and antenna elevation; user can follow this guidance to adjust antenna.

1 You can use number keys to input parameters in “Local Longitude”, “Local Latitude” and “Satellite Longitude”.

2 You can use [Left/Right] key to select east or west in “Local Longitude” and “Satellite Longitude”, select north and south in “Local Latitude”.

3 Moving highlight to “Start” item and press [OK] key. The lower column on the screen will calculate the corresponding value automatically.

4 Orientation means the angle between south and satellite.

Press [Exit] key to draw back to “Main” Menu.
11. Preference

When you enter to “Preference” menu, you will see the screen like below:

In “Preference” menu:
- Press[Channel Up/Channel Down]key to select menu items among Language, Parental Lock, Control Time setting, Timer, A/V Control, Miscellaneous Settingl OSD Setting.
- Press[OK]key to enter the selected item.

11.1 Language

When you enter to “Language” menu, you will see the screen like below:

1 Language: press [Volume Up/Volume Down] key to select menu languages, the selections of languages include: English, French, German, Russian, Arabic, Portuguese, Turkish, Spanish, Polish and Italian.

2 First Audio: Some channels have more than one audio language for choosing; by this function you can set the first audio for this channel. If the playing channel has the same audio as the “First Audio” you set, system will play this audio language as default. If the channel hasn’t the suited audio language, then the system will compare automatically with second audio language. The selections of audio languages include: English, French, German, Russian, Arabic, Portuguese, Turkish, Spanish, Polish and Italian.

3 Second Audio: If the channel has no correspond audio with “First Audio” but have corresponded audio with “Second Audio”, system will play the second audio language as default. If no audio language corresponds with the “Second Audio”, then the default language of current channel will be played automatically. The selections of audio languages include: English, French, German, Russian, Arabic, Portuguese, Turkish, Spanish, Polish and Italian.

4 Audio Priority: Press [Volume Up/Volume Down] key to select Dolby or Language.

5 EPG: Press [Left/Right] key can select EPG language.

6 Subtitle Language: Press [Left/Right] key can select subtitle language.

7 Teletext: You can set teletext language. If the streams have this language you can see the teletext in language you set.

8 Press [Exit] key to draw back from “Language” menu.

11.2 Parental Control

You can set a password for anyone who wishes to operate in the “Installation” menu. And you can also set the password for the lock channels. (How to set the lock channel please refer to LOCK) Here will show you how to setting and how to revising the password.

1 In “Parental Lock” function, press [OK] key, there will pop an dialogue for you to input the password. When you input the correct password, you will see a screen like below:
2 Menu Lock determining that when user wish to enter “Installation” menu, whether have to input Password or not. If the setting of “Menu Lock” is “On” which means user have to key in password, set “Off” means unlock.

3 Channel Lock determining that when user wish to play the lock channels, whether have to input the password or not. If the setting is “On”, play the channels with lock mark will show up a dialogue on the screen and ask for the password. If the setting of “Channel Lock” is “Off”, the Lock function will invalid.

4 New Password is used for revising password; you can input the new password in this item by using number keys directly. After you filled in 4 digital numbers, the highlight will auto skip to Confirm Password and ask you to input the new password again. If the password is correct, the screen will show up a message of “Saving Data, Please Wait…”. After finish saving and draw back to “System Setup” menu, the revising is complete. Press [exit] key to draw back from the “Parental Lock” menu.

11.3 A/V Control

When you enter to “TV System” menu, you will see the screen like below:

※ Display Mode is for switching the system outputting video resolution. Move highlight on it and press left or right key, it will switch video resolution circularly by the sequence “Auto-> by native TV<->480i->480p ->576i ->576P->720p-50->720p-60->720P-60->1080i-50->1080i-60 ->1080p-50->1080p-60”. This effect is equal to press V.Format Key under Full Screen and their last setting saving will be efficient for each others. By Source means system will set the video output resolution according to the programme it’s playing, different resolution programmes switching perhaps will makes TV screen flickering. By Native TV means system will be according to the HDMI TV’s max supported resolution to set its resolution, if system is not connected to a HMDI TV, it will set resolution to be default

※ Aspect Mode is for switching the screen aspect ratio mode. Now we provide below options: 4:3 PS / 4:3 LB / 16:9/Auto. You can press [Left/Right] key to select each mode circularly. 16:9 will provide user pillar box mode it means user use 16:9 TV to display but need to see a 4:3 full display picture. System will force press wide screen picture to be narrow and there’ll be black band on left and right site. Auto means system won’t do any aspect ration translation, 16:9 picture source will be good display on a 16:9 TV but will be too narrow on a 4:3 TV, and 4:3 picture source will be
too wide in a 16:9 TV but will be good display in a 4:3 TV.

- Video Output: Press [Left/Right] to select RGB or YUV.
- RF system and RF channel are for user to set the TV RF modulator output signal VHF/UHF channel and TV system mode. If your TV is too old to supports CVBS/HDMI, you can use TV RF cable to connect STB’s TV RF output port to TV Antenna input port.
- Digital Audio Out is for setting the both SPDIF and HDMI’s digital audio output mode, it has options LPCM Out, Auto, You can press [Left/Right] Key to select each mode circularity. LPCM Out means system will decode no matter AC3 or PCM audio track data to be LPCM, digital audio decoder or HDMI TV will get LPCM digital audio data. Auto means system will detect which the connected HDMI TV can decode and then output that data. If HDMI TV can decode AC3, system just output RAW data, if HDMI TV can decode LPCM only, system will just decode AC3 or LPCM to be LPCM and then output.
- Press [exit] key to draw back from “TV System” menu.

11.4 Time Setting
When you enter to “Local Time Setting” menu, you will see the screen like below:

12.2.3 Save default value

When you press [OK] key in the “Save default value” item, there will show a message to inquiry you “Do you want to set current database as default data?”. If you select “YES” option, it will set current data as default data.

12.3 Software Upgrade

1. We offer the functions for user to connecting receiver (Master) to the other receiver (Slave) via serial interface. Connect master receiver to slave receiver via serial interface. Enter “Software Upgrade” menu in master receiver and press [Volume Up/Volume Down] keys to switch upgrade mode: All SW+bootloader /All SW+Channel list/Software(no channel list)/Channel list.

3. Turn on slave receiver and it needn’t operate any setting.

Upgrade By Satellite:

This function can upgrade the software through signal lines from the satellite.

1. Select the satellite and TP or input the TP value and download PID, these parameters you can get from your provider.

2. Then move the highlight to the start button and press [OK] button to start upgrade.
12.4 Upgrade By USB

In this menu you can upgrade the software from USB conveniently. Press “Left/Right” button select USB A or USB B; press ‘OK’ button to enter.

In this menu you can select the Upgrade Mode among Software (No channel list), Channel list, All SW+bootloader and All SW+Channel list, and you can select the appropriate upgrade file on “Upgrade File” item. After you select the “Upgrade Mode” and “Upgrade File”, press ‘OK’ button on “Start” item, the receiver can upgrade automatically.

NOTE:
You must put the upgrade file on the /ROOT DIRECTORY of the USB storage.

12.5 Backup to USB

In this menu, you can dump the software to the USB equipment.

1. In “Backup file”, you can press [OK] key to edit the file name.; Press “Left/Right” button select USB A or USB B;

2. In “Backup to USB”, you can press [OK] to start backup software.

13. Conditional Access

13.1 CA Setting

We provide two CA slots for user to use. Receiver has built in smart card module with CONAX system. By using cards in this system provided by operators, it is possible to watch many scrambled channels coded in this system. This menu shows detailed information about card inserted into card reader module. It allows inserted according to help messages visible on the bottom of the screen.

Note: All information showed in this menu and submenu are coming from inserted card. In case if anything is wrong, it could be card problem. After inserting the card correctly at any time, a message-box will show on the screen with
message about detecting the card, in “card info” menu all available information will be displayed.

### 13.2 Common Interface

14. We provide two CI slots (option, some model only has one slot) for user to use. Using different CAM & cards provided by different CAS operator, user can view many type or scrambled channels.

We provide this menu to display the detail information of the CAM & card inserted in the slot. User can check all this information according to the help message at the bottom of each menu.

*Note: All information showed in this menu and submenu is abstract from CAM & card. In case something is wrong, it may be the problem of CAM or card.*

When you insert the CAM correctly at any time, a message will show in the screen to tell you that which CAM has been detected by the receiver and is available now.

**CI Message**

It is used to turn on or turn off the CI info display function by using ◀, ▶ buttons or “OK” button to select.

**ON:** To display the CI info.

**OFF:** Don’t display the CI info.

### 15. USB

if you enter to the “USB” Menu, you will see the picture like the below:

*Note: If no USB Hard Disk insert to the receiver this menu is not available.*

#### 15.1 File List

In this menu you can select the file list from USB A, USB B or SD card. Press [ok] button to enter the File list. you can check the files and folders of the USB storage, and you can play MP3 and JPEG files.

#### 14.1.1 Record Files
In this menu you can playback the record files, and you can press [Red] key to rename the file, or press [Green] key to lock the file, or press [Yellow] key to delete the file. You can press [1] key to adjust the volume while you preview the record file on top of the right corner. and you can press \( \sqrt{ } \) to enable or disable the audio.

**14.1.2 MP3 Files**

In this menu you can select the MP3 file to play by press [OK] key or [PLAY] key. Also you can setting the play list.

**[Red] key**: Show play list as the picture bellow:

- **Red Key**: Move the selected file by press Red key and [UP][DOWN] key.
