

DESIGN KIT

Wireless Power Demo Kit 5 W

Place Qi-receiver here

TECHNICAL DATA:

Transmitter Input Voltage 5V

Receiver Output Voltage 5V @ 1A

WPC version 1.1 compliant

High efficiency Coils

Order Code 760 308
Version 1.0

Wireless Power Demo Kit 5 W

WE-WPCC Wireless Power Coils

Characteristics

- Qi standard compliant
- Evaluated and approved by Texas Instruments and Integrated Device Technology
- Litzwire used – highest Q-value available on market

Applications

- Smartphones
- Portable devices used in a clean area, where connectors pose a risk of polluting e.g. medical facilities and (industrial) clean rooms
- Devices with a large number of mating cycles to avoid connector damage
- Headsets
- Portable media players

Electrical properties: Wireless Power Coils

Order Code	L (μH)	$R_{\text{DC typ}}$ (Ω)	I_{R} (A)	I_{sat} (A)	f_{res} (MHz)	Q	Size
760 308 101	24	0.07	6.0	10	6	90	A1
760 308 105	6.30	0.02	13	16	20	55	A5
760 308 110	24	0.07	6.0	10	5	180	A10
760 308 111	6.30	0.02	13	16	20	80	A11
760 308 106	12.5	0.06	9.0	10	14	125	A6
760 308 201	10	0.16	4.5	8	15	50	3737

Depending on the application all WE-WPCC coils can be used as transmitter or receiver coils referring to 40 K self-heating above ambient temperature

Important information: Würth Elektronik's design kits contain reference components. These components correspond with the current product development status on the day of supply. Exchange of the reference components to components with up-to-date product development status is not carried out automatically. No liability is taken for the use of these reference components. Therefore, please request new samples prior to releases for series production and product release.

Please check datasheets on www.we-online.com for specifications.
