

Ratchet Telemaster™

Features

- Pro Level crimping tool for RJ-45 (8P8C) and RJ-11 (6P6C, 6P4C, 6P2C) modular plugs.
- Heavy duty steel frame and precision ground crimping components for consistent crimp height.
- Heavier duty, high leverage, ratcheting version of our popular Telemaster™ Tool for RJ-45 and RJ-11 modular plugs
- Ratchet allows for a repeatable crimp action for consistent, high quality connections
- Blade for cutting cable and stripping cable jackets.
- Works seamlessly with IDEAL Brand Modular Plugs
- Compatible with industry standard CAT5e/6/6a data plugs.
- Also works with most shielded modular plugs CAT5e/6
