

Unleash your Creativity with the New UP! Plus 2 Portable 3D Printer

a micro factory for anyone, anywhere, anytime!

Whether you are a professional or a hobbyist, an engineer, an innovative designer, an inventor, a creative teacher, an amazing thinker, or a hi-tech tinkerer, then having your own 3D Printer will enable you to unleash your creativity and turn your designs into real-life 3 dimensional models – at the touch of a button!

The UP! Plus 2 3D Printer works straight out of the box...

The UP! Plus 2 leads the field for professional 3D digital printing and additive manufacturing.

The first machine in its class to offer a full automatic platform calibration system as standard, including platform levelling and platform height calibration.

What's in the box?

The UP! Plus 2 comes with everything you need to allow you to start printing your 3D models:

- UP! Software
- 700g spool of ABS filament
- Perforated build platforms
- Tool Kit and manual
- 12 month warranty
