

Product information

Weller®

WSP 150Code No. : **T0052917099**

Silver line heating technology
Soldering iron WSP 150 with safety rest

- 150 W, 24 V
- Ideal for applications with a high temperature demand

Technical data

Voltage (heater):	24 V
Heating output:	150 W
Heat-up time:	approx 45 s 50°C - 350°C (120°F - 660°F)
Temperature range:	50°C - 550°C (120°F - 999°F)
Tip type:	LHT series
Connectable to:	PUD 151 / WR 3M /WR2

Silver line Heating Technology

- Effective heat transfer
- Wide soldering tip range
- Universal use

Approved heating technology with effective heat transfer. For all purpose industrial applications. A wide range of soldering tips are available.
