

Insulating Tape

Product Type:

PVC Insulation Tape

Application:

At 0.15mm, this PVC tape is thicker and of a higher quality than standard PVC tapes. Suitable for a range of applications including electrical binding, colour coding and identification. Available in a variety of colours and sizes and made from self extinguishing, flame retardant PVC.

Standards:

Complies with the requirements of BS EN 60454

19mm x 33mm
