What does Panda Internet Security 2015 offer?

SECURITY:

NEW architecture based on Panda's Cloud.

Proven efficiency: **More than 30 million users cannot be wrong.**

NEW more powerful antivirus engine.

NEW signature cache to detect viruses offline.

NEW heuristic protection to neutralize entirely new, previously unseen malware.

Protection against viruses that take advantage of program and operating system vulnerabilities.

Control access to sensitive data. Keep your confidential documents safe.

Back up your data and protect your files against hardware failure or accidental deletion.

LIGHT FOOPRINT:

NEW intuitive and customizable user interface. Easy for you, powerful against viruses.

Developed from scratch to minimize performance impact.

All the work is done in the cloud, not on your PC.

Much smaller local signature files, optimized by Cloud Intelligence.

...PROTECT YOUR FAMILY AND IDENTITY AGAINST INTERNET THREATS:

NEW firewall: Protect your Wi-Fi network from intrusions and attacks.

Secure your communications against online fraud.

Vaccinate your USB flash drives against infections.

Play games and watch movies without disruption!

Parental control: Give your kids the freedom they need with the protection that you demand.

MINIMUM SYSTEM REQUIREMENTS:
