What does Panda Global Protection 2015 offer?

SECURITY:

NEW architecture based on Panda's Cloud.

Proven efficiency: **More than 30 million users cannot be wrong.**

Protection against viruses that take advantage of program and operating system vulnerabilities.

Control access to sensitive data. Keep your confidential documents safe.

NEW firewall: Protect your Wi-Fi network from intrusions and attacks.

Secure your communications against online fraud.

Password manager: Forget about having to memorize all of your passwords. We'll do it for you.

Parental control: Give your kids the freedom they need with the protection that you demand.

LIGHT FOOTPRINT:

NEW intuitive and customizable user interface. Easy for you, powerful against viruses.

Developed from scratch to minimize performance impact.

All the work is done in the cloud, not on your PC.

Much smaller local signature files, optimized by Cloud Intelligence.

Play games and watch movies without disruption!

NEW tuneup module: Keep your computer clean and tidy. You won't see the difference, but you will notice it.

CROSS-PLATFORM PROTECTION:

Enjoy maximum security for your PC, laptop, netbook, ultrabook, etc.

Safeguard your Mac with complete antivirus protection. Today, Mac® OS X is as vulnerable to computer infections as any other operating system.

Protect your Android™ devices. Secure your devices against Internet-borne threats and locate them if lost or stolen.

Entitles you to install and use one license on one Mac® computer. Scan iOS devices from your Mac® computer.

MINIMUM SYSTEM REQUIREMENTS:

Windows®

- Operating system: Windows® 8 & 8.1 (32-bit & 64-bit), Windows® 7 (32-bit & 64-bit), Windows® Vista (32-bit & 64-bit), Windows® XP (32-bit, SP2 or later)
- Processor: Pentium 300 MHz or higher
