

Mirage[®]

Telephone Headset Family

Convenient on/off design for fit and flexibility

Sculpted, ergonomic shape fits perfectly behind either ear

We understand the pace of today's busy offices and call centers, so the Mirage headset was designed to put on and take off quickly and easily. The sculpted over-the-ear shape and smooth surfaces of Mirage make it easy to slip on and off.

Mirage fits comfortably behind either ear, with a balance that keeps the cord out of your way. The speaker rotates so it rests lightly and comfortably against your ear, providing excellent sound.

Mirage is available with our trademark voice tube, for most call center or office environments, or a noise-canceling microphone when you need your voice to be clearly heard.

Backed by a two-year warranty, Mirage delivers unsurpassed durability, all day, every day.

HEADSET AMPLIFIER REQUIRED

AMP UP!

Plantronics offers amplifiers to connect our headsets to your telephones, including cordless models for office mobility.

Direct-connect Polaris™ headsets are available for headset-ready phones and agent consoles.

World Leadership: Plantronics is a world leader in lightweight communications headsets with over 40 years of experience. We offer a complete line of headsets for call center, office, home, mobile and computer applications, all backed by a service and support team that is second to none.

The Plantronics voice tube advantage: Plantronics invented the voice tube and continues to improve the design to deliver the best in performance and style. Our voice tubes are the only ones that slide back and forth for better positioning and

improved sound quality. You can also add color to your conversations with AttiTube™ color voice tubes.

Reliability for business-critical applications: Plantronics has years of experience developing headsets for mission-critical applications, including 911 centers, the FAA and even the headset that carried Neil Armstrong's first words from the moon. That same attention to durability and reliability goes into the headsets we design for your business-critical applications.

Mirage[®]

Telephone Headset Family
