

Industrial Soldering Irons

Description:

KB-Series is designed for high power soldering jobs which require heat retention at the tip. Ranging from 80W to 300W, this series is useful mainly for soldering metal sheets, or as a branding tool. It can also be used to cut vinyl canopy fabric. The high quality heater element ensures a long life. It features an ON/OFF switch on handle and is fitted with a Copper tip. Comes with heavy duty sturdy stand.
