66314 - Statfree UC™ Mat Kit - 0.080"x30"x72", Sky Blue, Class 1000 Packaging

- **NEW Ultrasonic Cleaned, Dried and Packaged in Class 1000 Controlled Environment***
- Removes contamination from mat for use in clean environments.
- **NEW Double Bagged**
  Controls contamination of contents before the product is transferred to the cleanroom.
- **Dissipative (1 x 10^6 to < 1 x 10^9 ohms Rtt) Colored Top Layer**
- Meets ANSI/ESD S20.20 worksurface required limit and recommendation of ANSI/ESD S4.1 for contact with ESD susceptible items.
- **Conductive (< 1 x 10^4 ohms Rtt) Black Bottom Layer**
- The dedicated conductive layer reduces the resistance to ground (Rtg) from the top of the surface to the groundable point ground and allows the mats to be used with ESD continuous monitors.
- **High Strength Nitrile Rubber Compound**
  Designed to withstand abrasion, stretching, and tearing and may be used in soldering applications with flux and other chemicals. Click Here for Chemical Resistance Chart.
- **Ultraviolent (UV) Stabilizer Additives**
  Stabilizes color retention, ensures ESD performance over time and eliminates surface layer deterioration resulting in cracking when the product is flexed.
- **Lead-free RoHS 2 compliant**
- **Includes 14213 Ground Cord**
- **Made in the United States of America**
