

SOLDERING IRON STAND ST6A

DATA SHEET

ANTEX PART NUMBER: H8B0060

The ST6A is an industrially styled bench stand for ANTEX M, C, CS, XS, TCS, TC & SD soldering irons. Ideal for use when a fume extraction tube is used ANTEX (WFSKIT0.)

FEATURES

It is not suitable for the larger Antex HP and “Solbraze” range of soldering irons.

It is manufactured from high grade materials, suitable for use with soldering iron tip temperatures. It incorporates slip-resistant feet, and a ballast weight for added stability.

The innovative design ensures that the soldering iron handle temperature is kept to a minimum when the iron is placed in the stand for long periods.

* It is not suitable for the larger Antex HP and Solbraze range
