

# USB x3 Car Charger Power Supply 3.6A *PowerPax*

Part number CAR-USB-3

#### Features:

- Triple output In Car USB charger / power supply
- Input range: 12vdc - 24vdc
- Miniature size
- Suitable for charging Apple / Android / Sat Nav devices
- 3.6A maximum output across 3 USB sockets combined
- Blue LED Illumination for night use (pictured below)
- Socket 1: Rated to 1.2 Amps max
- Socket 2: Rated to 2.4 Amps max
- Socket 3: Rated to 2.4 Amps max

This high quality car charger is rated to 3.6A maximum across all 3 USB sockets. For example, it can be used as 3 x 1A outputs, or 2.4 amps from 1 socket and 1.2 amps max from the other. The outputs are very versatile to power a massive range of products including Apple and Android devices as well as Sat Navs and power banks as well as other electronics.

The input can be either 12vdc or 24vdc so will work in cars as well as larger commercial vehicles

This USB car charger is fitted with blue LEDs to illuminate the device making it easy to locate, particularly when using in low light levels
