

GS-630T

TRANSPARENT SOLDERLESS BREADBOARD, 630 TIE-POINTS

The Global Specialties GS Series of breadboards connect easily by way of molded key tabs to other GS Series breadboards or bus strips. Most breadboards come with red and blue lines indicating continuity and allow for convenient and easy viewing of circuit connections. Use bus strips for signal and power connections in breadboarding experiments and circuit design. GS breadboards are made of ABS plastic with phosphor bronze contacts.
