Harmonic filter **HF1P 3,68-230**

Standards

Harmonic filter in accordance with EN 61558 Part 1, EN 61558 Part 20, UL 508 17th Ed., CSA 22.2 No. 14-10

Advantages

Sinusoidal current consumption from the mains in devices with uncontrolled B2U diode rectifiers

- Compliance with EN 61000-3-2, EN 61000-3-12
- Support in the compliance with IEEE 519, D-A-CH-CZ

Power factor >0,95 at rated current

Operation at 50 - 60 Hz possible

Use of the HF1P as a central hum filter for multiple converters possible

Applications

Harmonic filter module to ensure sinusoidal mains currents, reduction of mains harmonic currents, increase in system service life and system reliability and compliance with power quality standards such as IEEE 519, TEC 61000-3-2, IEC 61000-3-12.

Approvals
