VISE BASES

[BACK](#)

Built into every 300 series bases is our patented "split ball" technology. All 300 series bases accept 5/8" (16mm) diameter stems or shafts and are compatible with 300 series Heads including the [315 Circuit Board Holder](#). They are also compatible with all 300 series [Base Mounts](#). All our vises and work holding devices come with a "lifetime warranty."

Standard Base - Model 300

- The patented single load control knob and exclusive split-ball feature firmly lock the head into place.
- This base has three 1/4" (6.3mm) countersunk mounting holes on a 4 5/16" (109.5mm) bolt circle for attaching directly to a work bench or to a portable Base Mount.
- Accepts all 5/8" (15.9mm) stems.
- Overall height is 3 3/4" (95.2mm).

Low-Profile Base - Model 305

- This base has all the tilt, turn and rotate control features of the Standard Base, but it's only 2 1/2" (63.5mm) high.
- Designed for working close to the bench surface.
- When used with the [304 Low-Profile Head](#), it allows the work to be swung out and away from the bench surface.
- This base has three 1/4" (6.3mm) countersunk mounting holes on a 4 5/16" (109.5mm) bolt circle for attaching directly to a work bench or to a portable Base Mount.
- Accepts all 5/8" (15.9mm) stems.

Vacuum Base - Model 380

- Our Vacuum Base is in wide use for portable applications. Simply flip the lever to "activate" the rubber base and attach the unit to any non-porous surface.
- 80 lbs (36.3kgs) of pull pressure created when vacuum engaged.
- Pad foot print measures 5 1/8" (138.2mm) by 4 1/4" (108mm)
- Accepts all 5/8" (15.9mm) stems.
- [Pad repair kits](#) also available.
- Overall height is 3 1/4" (82.5mm).
