

## **Thermaltake Versa H23 Mid-Tower Chassis**

Ideal for home-computer builders and gamers, with enough space for high-end hardware and expansion. The ample ventilation options, cleanable air filter, and a perforated mesh bezel help to keep the entire system cool and dust-free. Versa H23 combines a manageable frame size with extensive options to customize user's computer or gaming system.

### **Key Features**

- **Enthusiast Design** - Designed for gamer, eSPORTS look front bezel and perforated metal mesh top panel build for easy heat dissipation and rapid air intake for maximum ventilation. The heighten foot-stands at the bottom help to enhance airflow.
- **Tool-free Installation** - Innovative tool-free drive bay design minimized the hassels of installing/removing, including 2x5.25" ,3x3.5" and 3x2.5 drive bays for accessory and storage devices.
- **Handy I/O ports** - The perforated front-top panel has implemented one data transfer SuperSpeed USB 3.0 port along with one standard USB 2.0 port, a HD microphone and headset jacks, to grand direct access when needed.
- **Optimized Ventilation** - Preinstalled one 120mm rear exhaust fan, optional 2 x 120mm intake fans to optimize system ventilation with dust filter.
- **Convenient Support** - Pre-mounting holes to support motherboards up to standard ATX and CPU cooler installation, long graphic card also supported as well as Advanced Cable Management and Liquid Cooling System.
