

Combination Ratcheting Reversible Wrench

Part number: CWRR-716

This combination, ratcheting, reversible wrench measures 7/16" at both ends. A standard open end wrench (with a 15 degree offset) on one side and a ratcheting reversible box end (with a 15 degree angled head) on the other.

The ratcheting end allows you to toggle from tightening to loosening. It provides 12 points of contact, making this the perfect wrench for cable and satellite installers working on "F" connectors, splitters, wall outlets and on the back of TVs. Made of Chrome Vanadium steel, chrome plated and polished to a high gloss finish. Tool is 6-1/2" long.
