## Announcement Comp-Card®-System Assortment Polymer Capacitors Fab. TEAPO

Advanced applications shall meet the increasing requirements of components:

- high electrical and thermal capacity
- long life and high reliability
- high electrical conductivity
- low ESR
- sustain of extreme temperature
- low heating because of small internal resistance
- low power dissipation
- Nominal capacity independent from voltage and temperature

All these advantages did not convince you yet ?

Just develop your new product – either in automotive or industrial automation, telecommunication, LED, electronics ballasts, measurements, embedded or communication systems, electric drives. With our design kit – your work will be an easy one.

### CSP-01

(1 Flap FL16/20) 16 Values / 160 Pieces

Type/Brand: VB / VS Fab. TEAPO

Values: 4V – 25V / 47uF – 1.200uF

Liefe time: 2.000 / 5.000 hrs.. / 105°C

Tolerance: ±20%

#### Values-Quantities Selection:

VB 100uF / 16V	10x	VB 100uF / 25V	10x	VB 180uF / 16V	10x	VB 270uF / 16V	10x
VB 330uF / 16V	10x	VB 470uF / 6,3V	10x	VB 820uF / 6,3V	10x	VB 1.200uF / 6,3V	10x
VS 47uF / 10V	10x	VS 68uF / 16V	10x	VS 120uF / 10V	10x	VS 220uF / 6,3V	10x
VS 330uF / 4V	10x	VS 390uF / 6,3V	10x	VS 470uF / 4V	10x	VS 560uF / 6,3V	10x

Price: EURO 75,00/Pc

Delivery time: from week 05/2015 available

Geschäftsführer: Claudia Dinges  
VAT-ID: DE 121 859 595  
AG Köln HRB B 40146
