Description of Change: A header constructed with SPCC steel and manufactured at an alternate location will be added to the bill of material for OP130 and OP230 type product.

Change Identification: The effective date code for this change is 1331.

Reason for Change: This header fabricated with SPCC steel and manufactured at an alternate location will be added to the bill of material for all OP130 type products to ensure a continuous supply of material.

Expected Impact: The alternate header does not affect the form, fit, or function for the OP130 type product.

Implementation of Change: July 29, 2013

Cessation of Present Process: The original header constructed with Alloy 42 will remain on the bill of material.

Assessment: The qualification report for the alternate header is available upon request.
