Lead in massive form does not require a label (see section 1.3 of Annex I).

- 1.3.4. Metals in massive form, alloys, mixtures containing polymers, mixtures containing elastomers.
 1.3.4.1. Metals in massive form, alloys, mixtures containing polymers and mixtures containing elastomers do not require a label according to this Annex, if they do not present a hazard to human health by inhalation, ingestion or contact with skin or to the aquatic environment in the form in which they are placed on the market, although classified as hazardous in accordance with the criteria of this Annex*.
 1.3.4.2. . Instead, the supplier shall provide the information to downstream users or distributors by means of the SDS.

***ANNEX I**

CLASSIFICATION AND LABELLING REQUIREMENTS FOR HAZARDOUS SUBSTANCES AND MIXTURES
 Directive 67/548/EEC and 1999/45/EC and amending Regulation (EC) No. 1907/2006.

4.) FIRST AID MEASURES

4.1.) Description of first aid measures

First aid measures after inhalation:

Remove the victim into fresh air. Respiratory problems: consult a doctor/medical service.

First aid measures after skin contact:

In case of splash from molten metal, wash affected skin areas with copious amounts of running water. Further treatment of the burn.

First aid measures after eye contact:

Rinse immediately with plenty of water. Take victim to an ophthalmologist if irritation persists.

First aid measures after ingestion:

Dilute stomach contents with water or milk. Do NOT induce vomiting. Ask for medical advice.

4.2.) Most important symptoms and effects, both acute and delayed

Symptoms/injuries:

Handle in accordance with good industrial hygiene and safety practice.

Symptoms/injuries after skin contact:

The melted product adheres to the skin and causes burns.

Symptoms/injuries after eye contact:

In case of splash from hot solder to the eyes and if not removed, may result in serious injury. Vapours produced during soldering operations can give slight irritation of the eye tissue.

Symptoms/injuries after ingestion:

Symptoms similar to those listed under inhalation, as well damage to the kidneys.

4.3.) Indication of any immediate medical attention and special treatment needed

No additional information available.

5.) FIREFIGHTING MEASURES

5.1.) Extinguishing media

Suitable extinguishing media:

D powder. Dry sand.

Unsuitable extinguishing media:

Never use water near molten metal.
