

Linx 10¹⁰

The Linx 1010 is the perfect companion for all the things you do. A powerful Quad-Core Intel® processor brings all the features of the latest Windows® operating system to the stunning 10.1" display that lets you stay productive and entertained wherever you are¹.

With Windows® 10 everything is so familiar and easy to use, you'll feel like an expert straight from the box. Great apps come as standard with the pre-installed Office Mobile apps² and the new Windows® Store that brings a unified shopping experience across all Windows® 10 devices so that you can easily purchase great digital content including apps, games, music, movies, and TV programmes³.

Made for doing.

Snap up to four apps on the screen, create virtual desktops for more space, and with Continuum your apps and content display beautifully in all modes, from a touch-focused tablet experience to a keyboard-and-mouse desktop experience and even as you transition from one to another.

Expand your experience.

The Linx 1010 can be docked into the official Linx 1010 Keyboard Dock to seamlessly transform your tablet into a powerful 2-in-1 device for a versatile Windows experience whether it's touch or type. Look for the Linx 1010 Keyboard Dock sold separately or as part of a bundle.

Hi. I'm Cortana.

Get help and reminders throughout your day with Cortana, your truly personal digital assistant who learns over time to become more useful every day while always keeping you in control.**
